Why vote for me?

Our nation is facing very troublesome times on many fronts. The importance that we follow the Constitution and the right principles of governing has never been greater. I am committed more than ever to the values that first prompted me to run for the Senate: limited government, low taxes, less spending and individual freedom. Americans must speak out strongly today to preserve and defend our Constitution and the system of limited government and freedom it embraces.

Top priorities?

- * Beat back the ever-increasing debt and deficit, stop government's out-of-control growth and intrusion into our lives and fight to restore the Constitution, individual liberty and responsibility.
- * Maximize economic growth and get people back to work by decreasing taxes, federal spending and regulations that burden our economy.
- * Work for commonsense solutions to protect and properly manage our natural resource heritage.
- * Protect our national security and invest in a strong defense.
