Why vote for me? My top priorities?

The nature of my business allows me to be flexible with my time and in addition to this time I have a passion for public service, government and problem solving. I want to give my experience and ideas to tackle some tough problems facing Idaho. The three areas I feel uniquely qualified for are Health Care, business growth and education.

I have over 18 years in the financial services industry including health insurance and I feel I can bring innovative ideas to help with Medicaid and the "black hole". I can provide help on onerous Medicaid recovery practices on qualified money. I'm also a voice for Idaho's small business owners with 15 years as a business owner. I want to strengthen entity protection particularly in LLC's for Idaho's small business owners. Serving on the school board and as a parent that has had my children in public, private and home school I understand the need for options and solutions in Idaho's education. I also own and farm 80 acres which means I understand issues facing our ag economy and water issues. As a financial services advisor, I have been speaking for clients, as contracts are written with companies daily for 18 years; this background allows me to be responsive to people's needs and advocating for them.
