Facebook/Steve Landon for Idaho House District 28

Steve Landon, a lifelong resident of Pocatello/Chubbuck, Idaho recently retired from a 43-year career with the JR Simplot Company. While at Simplot, in addition to his work responsibilities, Steve served as an officer in and president of the union representing Simplot Don Plant employees. During his career he served as an International Executive Board Member and President of the District Council representing workers in eleven Western States. Currently he is on the Board of Directors for the Idaho State Insurance Fund and he is the President of the Idaho chapter of the Alliance for Retired Americans (ARA). The ARA is an organization that is devoted to protecting and advancing the interests of seniors and is strongly committed to, among other issues, defending earned Social Security and Medicare benefits from attack. Steve is the Chair of the Pocatello Simplot Credit Union Supervisory Committee and is still an active member of the JR Simplot Education Council supporting education in School District 25.

Steve and his wife, Pam, are proud parents and grandparents. The things they enjoy the most usually involve family, especially activities involving the grandkids. When Steve takes a break from actively volunteering to help others he enjoys family activities that involve Idaho's outdoors--particularly travel, camping, fishing and golfing.

Education, the Economy and access to Idaho's public lands are issues that are very important. Idaho ranks last in education spending per student and 47th in per capita income. If we are going to improve both education and the economy we need to elect people who are willing to look at innovative solutions and a willingness to invest in the future of this state. If we want to continue to enjoy the camping, fishing, hunting and various other outdoor activities that make this state the great place it is to live and raise families then we need to elect people that will ensure that the public lands will remain accessible to everyone. The failure of the legislature to find a way to Close the Gap and provide more than 78,000 Idahoans with medical coverage is an indication that we need a change and a more progressive approach to the issues in this State. That is why I am running and why I am asking for the support of voters in District 28 for election to Seat A in the Idaho House.
