GOAL

To represent district four and the State of Idaho to the best of OUR capabilities. This will require well thought, studied, reviewed and unbiased knowledge of issues, that my colleagues and I will face. To explain the why, how, and steps toward the future in a way that the citizens can comprehend. I take the word representative to heart. Listen to the citizens feelings and goals to make the best decisions for the state and district 4. Based on that, use wisdom, action and motivation to make proper choices, and the best positive end result.

When the education system, economy, environment, and elderly care are positive and moving forward consistently along with many other issues, the legislature and myself as part of the team will have accomplished what we set out to do.
