SECRETARY OF STATE
STATE OF IDAHO

Hello, my name is Kreed Kleinkopf and I am seeking election to the Idaho State Legislature in District 17, House Seat A. I am seeking election to shed light on the deeply rooted corruption within our Idaho State government. Political corruption is a huge problem nationwide, and the story is not any different here in Idaho.

In 2016, your Idaho State Legislature passed "emergency" legislation allowing fracking, (hydraulic fracturing) to become a practice in populated areas around the state of Idaho (SB1339). They want to drill wells in the City of Eagle, and all along the Boise River, west of Star Road. This legislation was pushed through with the lobbying efforts of Alta Mesa Holdings, a Texas-based oil and gas company. Both Governor Butch Otter and Idaho's largest landowner, Lieutenant Governor Brad Little have signed oil and gas leases for their lands to Alta Mesa Holdings. They both stand to financially benefit from the pollution and lost property rights they enabled with this legislation. I think that is wrong, and I felt that the public officials in district 17 were not vocal enough about how bad this is really going to be for Idahoans. Team 17 voted against SB1339, but I think they should have done more to fight it. Fracking is a dirty practice that has been proven to pollute water, air and greatly increase the occurrence of earthquakes! I am strongly against this and how it was passed on the hush-hush here in Idaho.

I am not accepting campaign contributions from corporations, or special interest groups. I want to be elected to serve YOU. I am sick of living under a bought government. A corrupt system that is no longer accountable to the good of the people, but to the highest bidder. This is not a democracy, but an oligarchy. I am running to take our government back from the corruption and return it to the people.

This is only a scratch on the surface of the issues I want to discuss with Idahoans.
