STATE OF IDAHO
SECRETARY OF STATE

My Fellow Idahoans:

It is with great pleasure that I present to you this twentieth edition of the Idaho Blue Book, the official manual of the State of Idaho. This publication contains a wealth of information relating to all state officers, state institutions, boards and commissions, and county officers of the state. You will also find election results, as well as historical and statistical information.

We have attempted to maintain a tradition of quality and to keep the content true to the needs and desires of the people of Idaho.

I am grateful to all who have contributed to this publication and I sincerely invite your suggestions for improvement of future editions.

Respectfully submitted,

A handwritten signature in black ink that reads "Ben Yursa".

DEDICATION

Artisans and Craftsmen of the Capitol Restoration

We dedicate this issue of the *Idaho Blue Book* to the many artisans and craftsmen involved in the restoration of our state capitol building.

The restoration project involved the skills of cement masons and finishers, flooring craftsman, door and window suppliers, finish hardware restoration and reproduction vendors, lighting restoration and reproduction companies, art and artifact restoration vendors, glazing contractors, marble artisans and fabricators, mechanical team, HVAC technicians, electricians, plumbers and pipe fitters, fire protection and sprinkler technicians, carpenters and millwork craftsman, Scagliola and plaster artisans, foundries, roofers, elevator technicians, scaffolding erectors, drywall installers and finishers, brick and stonemasons, iron and steelworkers, telecommunications and low voltage technicians, security technicians, excavators, landscapers, material and equipment suppliers, kitchen equipment vendors, furniture restoration specialists, furnishings vendors, moving companies, inspectors, surveyors, consultants, architects, and engineers.

Through their efforts in restoring the "people's house", it will impressively stand for countless legislative sessions and executive administrations, manifold decades, and several generations before similar work is ever needed again.

PREFACE

This is the twentieth edition of the *Idaho Blue Book*, which is published biennially in odd-numbered years under the direction of the Secretary of State. The 2009-2010 edition contains constitutional, historical and statistical information about the state of Idaho. It also details the structure of Idaho's government and includes biographies of elected officials. The book is distributed free to all schools and libraries in the state upon request.

The Blue Book received its name not from the color of its cover but rather by definition of content. *Bartlett's Dictionary of Americanisms* defines the term Blue Book as "a printed book containing the names of all persons holding office under the Government of the United States. It answers the Red Book of England." Individual states have taken this concept and expanded it to include a wealth of information about state officials and resources as well as statistical and historical profiles.

This office strives for the greatest accuracy possible with this type of publication; however, because of the constant changes in appointments, some information contained within the section on Governor's Appointments is out of date even as this book is being printed.

I would like to thank the many individuals, including state, federal and local government officials, whose assistance helped make the 2009-2010 edition possible.

I would like to thank Marilyn Johnson, the previous editor, for all of her help, advice and support. I am grateful to Miren Artiach for her diligence in providing the most accurate information on appointments to boards and commissions. Thanks to Gary Daniel and the Idaho Capitol Commission for their help with information and historic photographs of the Capitol restoration. My thanks also goes to everyone else who contributed photos to this edition. I hope that the readers will find the *Idaho Blue Book* to be an interesting and useful reference on the State of Idaho.

Climate

Idaho’s climate is diverse. It is influenced by Pacific weather patterns, which help moderate temperature extremes. Generally, the northern part of the state has greater precipitation than either southwestern or southeastern Idaho. The southern part of the state has warmer summer temperatures than the north and is drier throughout the year. Southeastern Idaho, however, tends to be cooler than the west and drier than the north. Idaho’s growing season varies from about 200 days near the city of Lewiston to very brief at high altitudes. Idaho has no hurricanes, and tornadoes are extremely rare. Winds may accompany cold fronts and thunderstorms, but hail damage in the state is very small compared to that which occurs in the central United States. Geographically representative climate examples are:

	Elevation	Annual Mean Precipitation	Mean Snowfall	July Avg High Temp	Jan Avg Low Temp	July Avg Afternoon Humidity
Boise	2,840	12.1 in.	21.3 in.	90.2	21.6	22%

Automobile License Plates

The state of Idaho issued its first plates in 1913, with the price determined by the value of the vehicle. There were only 2,083 plates issued that year (each vehicle receiving a single plate). Motorcycles were not issued an actual license plate. Instead, the owners simply painted their registry number, state, and year of manufacture on the rear mud guard. In 1917, motorcyclists received their first actual motorcycle plates. Back then, if a license plate was lost, the motorist could purchase a blank replacement plate that was flat where the numbers would typically be embossed. The owner could then hand paint the license plate number in the flat area. Perhaps that is where Idaho’s creative license plate designs first began. Idaho has a long history of creative plate designs, in fact, it pioneered the concept. In 1928, Idaho became the first state in the nation to feature a graphic on a license plate by proudly displaying an impressive Idaho potato that filled the entire plate. The 1940 plate commemorated 50 YEARS OF STATEHOOD, and from 1941 to 1946 the words SCENIC IDAHO appeared on Idaho plates. 1947 plates

proclaimed the state a VACATION WONDERLAND! The 1948 plate highlighted our most famous product as WORLD FAMOUS POTATOES. In 1953 and 1956, the slogan was modified to read WORLD FAMOUS POTATO, but was shortened to FAMOUS POTATOES in 1957. Displaying Idaho’s passion for the outdoors, and skiing in particular, the 1947 plate featured a ski jumper. But in 1948 and 1949, the famous potato returned, this time in the form of a decal, complete with a pat of butter. From 1958 through 1968 the plates alternated between a green background with white letters to a white background with green letters. From 1968 through 1990, the standard plate format had a white background with green lettering. The award-winning 1991 issue (a modification of the optional Centennial plate) really showed the capabilities of modern vinyl graphic technique, featuring a panoramic scene of pine trees and mountains under a blazing red Idaho sky. The following types of license plates are available in Idaho: Scenic Idaho, Centennial, Radio Amateur, Classic, Motorcycle, Purple Heart, National Guard, U.S. Military Veteran, Old Timer, Street Rod, Medal of Honor, Military Veteran Motorcycle, Pearl Harbor Survivor, Former Prisoner of War, Armed Forces Reserve, Agriculture, Appaloosa, Boy Scouts of America, Capitol Commission, Collegiate, Corvette, Famous Potatoes, Firefighter, Historic Lewiston, Lewis and Clark, Police Officer Memorial, Motorcycle Safety, School Transportation Safety Awareness, Snowmobile, Snowskier, Sawtooth, Timber, Youth, White Water Rafting, Wildlife - Bluebird, Trout and Elk.

State Song

The music for the Idaho state song, composed by Sallie Hume Douglas, was copyrighted on November 4, 1915, under the title “Garden of Paradise.” In 1917, McKinley Helm, a student at the University of Idaho, wrote the verse which became the chorus of the Idaho State song, and Alice Bessee set the words to the music. The song was popular then, and Alice Bessee had no idea of its origin. This song won the annual University prize for that year, and eventually became the University alma mater. Albert J. Tompkins, Director of Music in the Boise Public Schools, wrote a set of verses for the song. In 1931, the Idaho legislature designated “Here We Have Idaho” previously known at the University of Idaho as “Our Idaho” as the Idaho state song.

HERE WE HAVE IDAHO

Official Idaho State Song by Enactment of Twenty-first Session of Idaho Legislature.

Verses by Albert J. Tompkins

Chorus by McKinley Helm

Music by Sallie - Hume Douglas

You've heard of the wonders our land does possess Its beau-ti-ful val-leys and hills-- - The

ma-jes-tic for-ests where na-ture a - bounds We love ev-ery no-ok and rill And here we have

I - da - ho Win-ning her way to fame Sil-ver and gold in the sun-light blaze And

ro-mance lies in her name Sing - ing we're sing-ing of you Ah, proud-ly too, All our lives

thru, we'll go sing - ing, sing - ing of you, sing - ing of I - da - ho.

You've heard of the wonders our land does possess
It's beautiful valleys and hills;
The majestic forests where nature abounds,
We love every nook and rill.

There's only one state in this great land of ours,
Where ideals can be realized;
The pioneers made it so for you and me.
A legacy we'll always prize.

CHORUS

And here we have Idaho
Winning her way to fame
Silver and gold in the sunlight blaze,
And romance lies in her name;

Singing, we're singing of you
Ah, proudly too, All our lives thru,
We'll go singing, singing of you,
Singing of Idaho

Idaho State Emblems

State Bird

The **Mountain Bluebird** (*Sialia arctica*) was adopted as the state bird for Idaho by the legislature in 1931. The Bluebird is 6 to 7 inches long and is a member of the Thrush family. Male Bluebirds are a pale sky blue over most of their body, darker on their back. Females are blue-grey with blue wings and tail, duller than the male. Juvenile birds have blue wings with the tail area duller than the adult male, a white eye ring and spotted underparts. Mountain Bluebirds live in open grasslands and nest in holes in trees, crevices and nesting boxes. They have a zig-zagging flight pattern that easily identifies them.

State Dance

The 1989 legislature designated the **square dance** as the American Folk Dance of Idaho. Two of the most commonly cited ancestors to modern square dance are the English Morris dance and the French Quadrille. It is the Quadrille that most point to as the grand-daddy of our modern square dance. One of the earliest records of this type of dance in America is contained in the works of John Playford, a musician and dancing master. His book, "The English Dancing Master - Plaine and Easy Rules for the Dancing of Country Dances, with Tunes to Each Dance" was published in seventeen editions between 1650 and 1728 and contained 918 dances. As the pioneers moved westward, many of the dances were lost or forgotten, but many were preserved, particularly in the southern Appalachians where the running set established itself as one of the deep taproots of western square dance. The running set even had a caller — America's only unique contribution to the square dance.

State Fish

The **Cutthroat Trout** was designated the state fish by the 1990 legislature. The Cutthroat, along with the Rainbow and Bull Trout, is native to Idaho. The body color varies with the back ranging from steel gray to olive green. The sides may be yellow brown with red or pink along the belly. The Cutthroat name comes from the distinctive red to orange slash on the underside of its lower jaw. The scientific name for Cutthroat Trout, *Oncorhynchus clarki*,

is in reference to William Clark who first described in detail the Cutthroats of the Columbia River. His partner Meriwether Lewis earlier encountered Cutthroats near the great falls of Montana's Missouri River in July of 1805. Cutthroat species found in Idaho are the Westslope Cutthroat which is found in northern and central Idaho and the Yellowstone Cutthroat which is found in southeastern Idaho.

State Flag

A silk flag, with a blue field, 5 feet 6 inches fly, 4 feet 4 inches on pike is bordered by gilt fringe 2 ½ inches wide, with the Great Seal of Idaho in the center. The words “State of Idaho” are embroidered in gold block letters two inches high on a red band below the Great Seal. Adopted by the 1907 legislature.

State Flower

The **Syringa** (*Philadelphus lewisii*) was designated the state flower of Idaho by the legislature in 1931. The species name honors Meriwether Lewis of the Lewis & Clark expedition. Lewis wrote of the plant in his journal. It is a branching shrub growing 3 to 10 feet tall, with clusters of white, fragrant flowers. The blossoms are similar to the mock orange. It grows

in open coniferous forests, at forest edge and in moist draws in drier regions providing good coverage for wildlife. Native Americans used its branches for bows, arrows and cradles.

State Fossil

The 1988 legislature designated the **Hagerman Horse Fossil** as the official state fossil. Originally described as *Plesippus shoshonensis*, subsequent research found that the Hagerman horse is the same as a previously described species and it is now known as *Equus simplicidens*, making it the earliest-known representative of the modern horse genus *Equus*. It is now believed to be more closely related to the living Grevy's Zebra in Africa than to horses. A rich fossil bed 3.5 million years old, which has yielded over 130 complete horse skeletons, was discovered in the 1920s near Hagerman and is said to be the best known Pleistocene-epoch fossil site in the world.

State Fruit

Several **huckleberry** species are native to Idaho, all belonging to genus *Vaccinium* section *Myrtillus*. The most common and popular is the black or thin-leaved huckleberry (*Vaccinium membranaceum*). Plants grow slowly, taking up to 15 years to reach full maturity. Black huckleberries produce single plump, dark purple berries in the axils of leaves on new shoots. They depend on an insulating cover of snow for survival during winter and have not been successfully

grown commercially. Black huckleberries grow at elevations between 2,000 and 11,000 feet with many productive colonies between 4,000 and 6,000 feet. Black huckleberries usually grow from 1 to 6 feet tall and produce berries up to 1/2 inch in diameter. Huckleberries are a favorite food of bears.

State Gem

Adopted by the 1967 legislature, the **Idaho Star Garnet** is known worldwide by collectors. Garnets are complex silicates, related to Quartz, and found almost exclusively in Idaho in Latah and Benewah counties. Star Garnets are a natural stone, not synthetically produced. Star Garnets are more rare than either Star Rubies or Star Sapphires. Normally the star in the Idaho Garnet has four rays, but occasionally one has six rays as in a Sapphire. The color is usually dark purple or plum and the star seems to glide or float across the dark surface. The star is caused by intrusions of the mineral rutile.

State Horse

Historians believe the Nez Perce and Palouse tribes of Washington, Oregon and Idaho were the first tribes to breed horses for specific traits - intelligence, speed and endurance. White settlers call these horses "Palouse horses." Over time they came to be referred to as "a Palousey" and the "Appalousey." During the Nez Perce War of 1877, **Appaloosa** horses helped the non-treaty Nez Perce, under the guidance of Chief Joseph, elude the U.S. Cavalry for several months. The coloring of the Appaloosa coat is distinct in every

individual horse and ranges from white blanketed hips to a full leopard. Adopted by the 1975 legislature.

State Insect

The **Monarch Butterfly** (*Danaus plexippus*) was adopted as the state insect by the state legislature in 1992. Early settlers to North America from Europe, particularly those from Holland and England, named the butterfly "Monarch," after King William, Prince of Orange, stateholder of Holland and later named King of England. The monarchs' color suggested the name. The Monarch Butterfly is a great migrator, traveling many miles during its lifetime, which can be from a few weeks up to a year. Monarchs range in mass from .25 to .75 grams (a dime has a mass of 2.3 grams). Males are usually larger than females. Female Monarchs lay eggs on the underside of milkweed plants. The larvae then feed on the plants. Monarchs go through a complete metamorphosis in 3 to 6 weeks.

State Raptor

The **Peregrine Falcon** (*Falco peregrinus*) was adopted as the state raptor for Idaho by the legislature in 2004. The scientific name comes from the Latin words *falco*, meaning hook-shaped (falcate) and may refer to the beak or claws, and *peregrinus*, meaning to wander. Peregrines have also been called Duck Hawk, Great-footed Hawk, and Wandering Falcon. The Peregrine Falcon has a body length of 15 - 20 inches, a 3 1/2 foot wingspan, and weighs 1 1/4 - 2 3/4 pounds. The Peregrine Falcon has one of the most global distributions of any bird of prey. This falcon is found on every continent except Antarctica, and lives in a wide variety of habitats from tropics, deserts, and maritime to the tundra, and from sea level to 12,000 feet. Peregrines are highly migratory in the northern part of their range. Boise is home to the World Center for Birds of Prey, The Peregrine Fund's world headquarters. Visit them on the web at www.peregrinefund.org/world.html or visit in person at the Velma Morrison Interpretive Center.

State Tree

The **Western White Pine** (*Pinus Monticola pinaceae*), our state tree, is probably most notable since the largest remaining volume of this timber in the United States grows in the northern part of Idaho. White Pine has many fine qualities such as straight grain and soft even texture. Idaho's state tree grows to 175 feet with a trunk diameter from 5 to 8 feet. The largest western white pine in the world stands 219 ft. high near Elk River, Idaho. Adopted by the 1935

legislature. According to the legislative bill, it was promoted by "members of Ellen Wright Camp, Franklin County Chapter, Daughters of Pioneers."

State Vegetable

Idaho's unique environment provides nearly perfect growing conditions for **potatoes**. The soil, water, clean air and climate in Idaho contribute to those consistently high-quality potatoes that have made Idaho famous for so many years. Idaho's rich volcanic soil is ideally suited for potatoes. Warm, sunny days, cool nights and water from melting snow in nearby mountains make the perfect combination for growing the world's best potatoes.

History of the Great Seal of the State

Seal for Idaho Territory 1863

No official record remains of the adoption of the first Great Seal of Idaho when it became a territory in 1863. The design is attributed to Silas D. Cochran, a clerk in the office of the Secretary of State.

Idaho's Final Seal Before Statehood 1890

Dissatisfaction with the official seal caused Governor Caleb Lyon to present a seal of his own design which was accepted by the Idaho Territorial Legislature on January 11, 1866. This, too, was controversial and was redrawn several times. Nevertheless, it was used until Idaho became a state in 1890.

Only Great Seal Designed by a Woman

Idaho became a state on July 3, 1890 and that same summer a talented young woman came to the state capitol at Boise to visit relatives. Emma Sarah Etine Edwards (later she married mining man James G. Green) was the daughter of John C. Edwards, a former Governor of Missouri (1844-48) who had emigrated to Stockton, California where he acquired large land holdings, a beautiful French Creole wife, Emma Catherine Richards, and became Mayor of Stockton, in about that order. Emma, eldest of a family of eight, was exceptionally well educated for a woman of that period and when she dropped into Boise, it was on her way home from a year spent at art school in New York. However, what was to be a very short visit turned into a lifelong stay, for she fell in love with the charming city and its people and opened art classes where the young pioneers of the community learned to paint. Shortly after her classes started, she was invited to enter a design for the Great Seal of the State of Idaho. Acting on Concurrent Resolution No. 1, adopted by the First Legislature of the newest state in the union, a committee was appointed from that body and instructed to offer a prize of one hundred dollars for the best design submitted. Artists from all over the country entered the competition, but the unanimous winner was young Emma Edwards, who became the first and only woman to design the Great Seal of a State. She was handed the honorarium by Governor Norman B. Willey on March 5, 1891. The state flag also carries the seal centered on a deep blue background. Emma Edwards Green had no children of her own, but assisted in rearing a nephew, Darell B. Edwards, a distinguished Oakland attorney. Ralph Edwards of "This is Your Life," also a nephew, shows a valid artistic strain flourished in the Edwards family. Mrs. Green died in Boise January 6, 1942. She was buried beside her husband in Oakland, California.

The Idaho State Seal

By Emma Edwards Green

Before designing the seal, I was careful to make a thorough study of the resources and future possibilities of the State. I invited the advice and counsel of every member of the Legislature and other citizens qualified to help in creating a Seal of State that really represented Idaho at that time. Idaho had been admitted into the Union on July 3rd, 1890. The first state Legislature met in Boise on December 8, 1890, and on March 14th, 1891, adopted my design for the Great Seal of the State of Idaho.

The question of Woman Suffrage was being agitated somewhat, and as leading men and politicians agreed that Idaho would eventually give women the right to vote, and as mining was the chief industry, and the mining man the largest financial factor of the state at that time, I made the figure of the man the most prominent in the design, while that of the woman, signifying justice, as noted by the scales; liberty, as denoted by the liberty cap on the end of the spear, and equality with man as denoted by her position at his side, also signifies freedom. The pick and shovel held by the miner, and the ledge of rock beside which he stands, as well as the pieces of ore scattered about his feet, all indicate the chief occupation of the State. The stamp mill in the distance, which you can see by using a magnifying glass, is also typical of the mining interest of Idaho. The shield between the man and woman is emblematic of the protection they unite in giving the state. The large fir or pine tree in the foreground in the shield refers to Idaho's immense timber interests. The husbandman plowing on the left side of the shield, together with the sheaf of grain beneath the shield, are emblematic of Idaho's agricultural resources, while the cornucopias, or horns of plenty, refer to the horticultural. Idaho has a game law, which protects the elk and moose. The elk's head, therefore, rises above the shield. The state flower, the wild Syringa or Mock Orange, grows at the woman's feet, while the ripened wheat grows as high as her shoulder. The star signifies a new light in the galaxy of states. . . . The river depicted in the shield is our mighty Snake or Shoshone River, a stream of great majesty.

In regard to the coloring of the emblems used in the making of the Great Seal of the State of Idaho, my principal desire was to use such colors as would typify pure Americanism and the history of the State. As Idaho was a virgin state, I robed my goddess in white and made the liberty cap on the end of the spear the same color. In representing the miner, I gave him the garb of the period suggested by such mining authorities as former United States Senator George Shoup, of Idaho, former Governor Norman B. Willey of Idaho, former Governor James H. Hawley of Idaho, and other mining men and early residents of the state who knew intimately the usual garb of the miner. Almost unanimously they said, "Do not put the miner in a red shirt." "Make the shirt a grayish brown," said Captain J.J. Wells, chairman of the Seal Committee. The "Light of the Mountains" is typified by the rosy glow which precedes the sunrise.

State Seal Now in Use

In 1957, the thirty-fourth session of the Idaho legislature authorized the updating and improvement of the Great Seal in order to more clearly define Idaho's main industries, mining, agriculture and forestry as well as highlight the state's natural beauty. Paul B. Evans and the Caxton Printers, Ltd. were commissioned to revise the seal. This painting by Paul B. Evans officially replaced the original design by Emma Edwards Green and is designated as the "Official Copy." The official Great Seal of the State of Idaho can be seen in the office of the Secretary of State.

Creation of the Territory of Idaho

Prior to 1868 the region destined to become Idaho passed through several territorial reorganizations. For five years (from August 14, 1848 to March 2, 1853) it was included in Oregon Territory. Then it was divided between Washington Territory and Oregon Territory until February 14, 1859. Oregon then became a state, and the entire Idaho area was attached to Washington. At that time, the land that became Idaho was expected to remain unsettled for another 50 years or so. That would have been some time into the twentieth century. Then an unexpected Idaho gold rush, a year after Oregon's admission to the Union, changed the whole situation. Miners came by the thousands, and within two years the Idaho mines (as the country was known in 1862) had gained a population a lot greater than the older settlements of Washington.

When gold was discovered at Pierce, September 30, 1860, the eastern part of Washington Territory (which included all of what is now Idaho) was undeveloped politically. The Idaho portion made up part of Spokane County, which no one had yet bothered to organize. Anticipating the Clearwater gold rush, the Washington legislature established Shoshone County, which included all the country south and east of Lewiston. In the territorial election of July 8, 1861, Shoshone County cast the largest vote in Washington, and in 1862 the Salmon River gold rush made Florence by far the biggest community in the territory. Older, more stable settlements such as Olympia and Seattle just did not compare with Florence that season. Mineral discoveries in Boise Basin, August 2, 1862, set off an even bigger gold rush to a region decidedly farther from the original settlements of western Washington. Something had to be done to provide better government for the new mining regions. Four different plans were advanced. Each was designed to fit the ambitions of one of four different communities in Washington: Olympia, Vancouver, Walla Walla, and Lewiston.

Lewiston wanted a new territory that would take in Washington east of the big bend of the Columbia River. If such a territory were to be established, Lewiston would have been a natural choice for capital. An editorial in Lewiston's pioneer newspaper, the *Golden Age*, expressed extreme dissatisfaction with Washington's government as administered from Olympia in the fall of 1862:

"Of what use to us is a capitol of Washington Territory located at Olympia on the forty-ninth parallel. During four months of last year no communication could be had with the place at all. Its distance is between seven and eight hundred miles, interspersed with huge forests, roaring rivers, and rocky bound shores of ice, with impassable barriers of snow. One of the editors of the *Washington Statesman* was elected to the Legislature by the voters of Walla, and before he left to perform those legislative duties for his constituents, he made his will, settled all of his worldly accounts, and bid his friends adieu until next summer, and perhaps forever."

Olympia actually was not quite as far north, or quite as far away, as the *Golden Age* made out. But many people in Lewiston strongly supported the plan for making a new territory, and a citizens' meeting there firmly endorsed the project, December 28, 1862. Walla dissented. Division of Washington Territory would leave Olympia capital of the western part, and make Lewiston capital of the new mining territory that would be established. Walla preferred to keep Washington territory intact. As a compromise, after the Boise gold rush got underway, Walla was willing to return to Washington's original boundaries which included the country later to become North Idaho and western Montana. Rapid growth of the mining population was expected to lead to Washington's admission as a state in another year or two, and Walla fully expected to be state capital. Most of the Idaho miners—at least the ones that voted in the 1862 election—had favored candidates who endorsed Walla Walla's preference. The Washington legislature chosen that year opposed the plan to set up a new mining territory of Idaho, and Walla expected to become capital of Washington just as soon as reapportionment

of the legislature could give control of the territory to the mining counties, which clearly had the majority of the population. West of the Cascades, Vancouver preferred an arrangement which would have kept enough of eastern Washington to advance Vancouver's claim to be territorial capital. Lack of a wagon road across the Cascades forced traffic from Puget Sound to come through Vancouver to reach eastern Washington. Thus Vancouver aspired to become territorial capital as a compromise location between the two sections. On Puget Sound, Olympia wished to retain its status as capital. In order to prevent the mining counties from gaining a legislative majority and from taking the capital to Walla, Olympia decided that the mining region would have to be set aside as a separate territory. At the same time, Olympia wished to keep the slower growing farming areas of eastern Washington. That way state admission would not be delayed too long, and Washington would be no smaller than was absolutely necessary to preserve Olympia's power. Olympia won the fight. A new mining territory of Idaho emerged from eastern Washington, with Lewiston on its western boundary. In this boundary settlement, Olympia and Puget Sound had enough strength to hold down Vancouver and Walla once the mining counties were taken out of Washington. A. G. Henry, an Olympia agent and Washington surveyor general, recommended the line which congress adopted and which continues to separate Idaho and Washington to this day. Of the four alternate boundary and capital city arrangements, Olympia's prevailed only after a hard battle. Those who worked in Olympia's interest—to keep the eastern agricultural lands in Washington, but to put the new mines in Idaho—had plenty of strength in the United States Senate but faced a hard time in the House of Representatives. The chairman of the House committee preferred to restore Washington's original 1853 boundaries, and to establish a new mining territory of Montana for the Boise region and for the upper Missouri mines which now are in Montana but then were in Dakota. This proposal passed the House, February 12, 1863. Yet it looked entirely too risky to the Olympia forces, and the last night of the session, they got Congress to amend the boundaries to include all the Idaho mines that Olympia wished to exclude from Washington. Olympia's agents quietly had built up enough strength in the House that they were able to gain concurrence in the senate amendments which changed the boundary and restored the name "Idaho" to the new mining territory. The last morning of the session—March 4, 1863—President Abraham Lincoln approved the proposal, and Idaho became a territory of the United States. Exceeding Texas substantially in size, Idaho originally included all of present Montana, along with practically all of Wyoming as well. That arrangement was a mistake. A large mountain block divided the population of the new territory of Idaho into three distinct sections. Each of them was relatively inaccessible from the others, and in 1864, Congress decided to set up a new territory of Montana, taking the northeastern part of Idaho for the purpose. That got rid of one of the three disconnected sections, but left the other two in Idaho, still separated by a difficult mountain barrier. The remainder of the original eastern Idaho was returned temporarily to Dakota when Montana was established, May 26, 1864. Finally, when construction of the Union Pacific railroad made possible the creation of Wyoming, July 25, 1868, Idaho received its present boundaries. By that time, the territory of Idaho had been in operation for a number of years, and the foundations for a new commonwealth had been laid. When Idaho became a state, July 3, 1890, the 1868 boundaries became permanent.

The Lewis and Clark Trail Across Idaho

Lewis and Clark led an expedition from St. Louis in 1804 to explore the headwaters of the Missouri, which through the Louisiana Purchase had just become part of the United States. Their purpose was to take boats as far as they could up the Missouri, and then to cross the Continental Divide to the Columbia. At that time, no white man had seen Idaho, which was in the unexplored southern Columbia interior that belonged to no one. (Or at least if anyone had seen Idaho, he did not bother to say much about it.) So, when four members of the expedition, including Meriwether Lewis, ascended the Continental Divide, August 12, 1805, and reached the region later known as Idaho, the story of the white man in Idaho began.

Lewis and Clark had expected to pack their gear across the divide between navigable waters of the Missouri and of the Columbia with little difficulty. In this they were disappointed. The mountains of Idaho turned out to be the major obstacle in their entire journey, and they were fortunate indeed to get through before early winter snow blocked their passage.

Not long after he crossed into Idaho, Lewis succeeded in making contact with the Lemhi Shoshoni, who agreed to come with their horses to move the expedition's supplies across to Salmon River. When Lewis' detachment and the Shoshoni band got back to the main expedition, they discovered that Sacajawea, their Shoshoni interpreter who had been captured in 1800 by other Indians and taken east, was a member of that same Lemhi band, which now was led by her brother. While Lewis and the main expedition were hauling their equipment over the Continental Divide, Clark and a few men went ahead to see if the expedition could expect to build boats and float down the Salmon. He did not have to go too far into the canyon to tell that it was far rougher than any country he had ever seen—and the Indians assured him that he had seen nothing yet in the way of rugged canyons. So Lewis and Clark had to trade for Shoshoni horses and to go north 160 miles to the Lolo Trail over a route that an elderly Shoshoni guide led them. Then, when they reached Lolo Pass on September 13, 1805, they found that they had made a great unnecessary detour to the south in searching out the headwaters of the Missouri. But, at last they were on their way to the Columbia.

Early winter snow made the trip over the Lolo Trail a hard one. And lack of game reduced them to eating horses for subsistence part of the time. Eventually, though, Clark's advance party reached a Nez Perce village on Weippe prairie, September 20, and obtained three horse loads of salmon and roots to send back to the main expedition. Then, upon reaching the forks of the Clearwater below Orofino, the party made dugout canoes and floated down to Snake River, the Columbia, and finally to the Pacific before winter set in.

Returning across the Lolo Trail in the spring of 1806 proved to be difficult. After recovering the horses which they had left in care of the Nez Perce Indians for the winter, the impatient explorers had to camp for a month or more near Kamiah waiting for the snow to melt on the upper trail, and then they started off too soon. Finally, with essential help from Nez Perce guides, they managed to complete their eastbound trip across north Idaho. Although they reported that they had been able to get from the head of navigation on the Missouri to the head of navigation on the Columbia, and that a road could be built to connect the two, they had not found a very practical early route across Idaho—at least in comparison with other routes that soon were discovered. But they had established friendly contact with the Indians of north and south Idaho, and had prepared the way for the fur trade which was to bring white explorers to all parts of Idaho.

Origins of Sacajawea's Name

Sacajawea is an English word of Hidatsa language derivation. A great deal of confusion has arisen concerning its origin. No really satisfactory explanation has been substantiated, largely because Lewis and Clark did not offer more than a vague suggestion, referring to her once as a bird woman whatever that was. For that matter, they generally did not comment upon linguistic origins of other names of members of their expedition either, and no one would have expected them to. They lived in an era when standard spelling of English words was beginning to come into fashion, but their journals (which they did not prepare for scholarly publication) contain considerable variety, including different forms for Sacajawea's name. When a published account of their expedition appeared in 1814, Sacajawea was adopted. This became her English name, although Sacajawea never became aware of that. She did not survive a stay at Fort Manuel in 1812, so she had no opportunity to see that publication. What name she used in 1812 went unrecorded, but it most likely was not Sacajawea anyway.

Whether Sacajawea had any idea at any time that she was referred to by an Hidatsa term for some variety of bird also is unclear and certainly is undocumented. Several problems account for this situation. Shoshoni and Hidatsa personal name practices differ so much from English and French systems that such a problem could not have been explained to her in 1805 or 1806 even if anyone had wanted to. Sacajawea did not speak English or French then, and had to converse with her husband, Toussaint Charbonneau, in Hidatsa which for her was a foreign language that she may have resented anyway. But Lewis and Clark obtained her identification as something like Sacajawea from an Hidatsa source, in this case *sa kaa ka wiiya* (a highly simplified transcription provided by Norman Bowers, a thoroughly competent Hidatsa linguist), which still can be recognized as their term for some kind of bird. Lewis and Clark learned of this designation through their Hidatsa interpreter Sacajawea's French husband, Toussaint Charbonneau. She may or may not have responded to such a name, but transcripts of ordinary conversation to determine that issue are unavailable. Since she could not communicate with expedition members anyway, except through non verbal means, she would have had a hard time identifying her name in alien conversation that she did not understand. Sacajawea is not a Shoshoni word, and French and English people would have had no way of discerning any Shoshoni name that she might have used even if they had wanted to.

Charbonneau's source for his wife's name cannot be ascertained. Several options are possible. Sacajawea most likely would have had more than one childhood Shoshoni name, and various bird (as well as animal) names often were used for young Shoshoni children. (She could have suggested a bird name to Charbonneau, which she would have had to have done in Hidatsa, because Charbonneau did not know Shoshoni. But no evidence supports this kind of explanation. It is only a conceivable, but undocumented, possibility.) Or her Hidatsa captors might have employed a crow, hawk, robin, eagle, or similar designation for her. This alternative certainly is credible, but also is undocumented. Charbonneau at least used an Hidatsa form that, he told Lewis and Clark, referred to Bird Woman. Another possibility, about equally plausible, is that Charbonneau named her Bird Woman. That would not have conformed to Shoshoni tradition better than any other explanation, but Charbonneau presumably had not studied Shoshoni tradition. Shoshoni women generally took a new name when they married, and Charbonneau or Sacajawea may have arranged that upon her assignment to Charbonneau. Neither one would have had much incentive to retain a name her Hidatsa captors used, and Sacajawea, in particular might have objected to an alien name. An additional variation is that Sacajawea may have selected some variety of bird without consulting Charbonneau or anyone

else. She would have had to tell Charbonneau that in Hidatsa if she did so, but that cannot be verified either. She had at least one or more Hidatsa names, but whether her Hidatsa captors ever called her Sa kaa kaa Wiiya cannot be established. Sacajawea and her Shoshoni people had no term for birds that French and English explorers referred to generically, and such a European language name would be total nonsense in their conception.

A variety of legends, mostly twentieth century, grew up concerning Sacajawea, and some of these dealt with her name. But irresponsible twentieth century attempts to tamper with a long established standard English spelling of Sacajawea's name have lacked linguistic merit, although they continue to distort many accounts of her career. If Sacajawea had been an Hidatsa rather than a Shoshoni woman, efforts to replace her English name of 1814 with a more accurate Hidatsa form of 1804 might have been more plausible. Unlike large numbers of her people, Sacajawea preferred to settle down in an Anglo French society after 1806, and certainly wanted to have nothing more to do with her Hidatsa captors. Inflicting a more authentic Hidatsa name upon her scarcely can be defended as an appropriate activity for twentieth century Lewis and Clark historians.

Lewis and Clark Timeline

January 18, 1803	President Thomas Jefferson requested funds for expedition
February 28, 1803	Congress appropriates \$2,500 for expedition
June 19, 1803	Lewis makes offer to Clark to join the expedition
Summer of 1803	Lewis presides over preparations for expedition
August 31, 1803	Lewis and eleven member crew depart down the Ohio River
October 15, 1803	Lewis joins Clark in Kentucky
December 1803	Winter quarters set at Camp Wood, Illinois
May 10, 1804	Expedition leaves St. Charles, Missouri, the westernmost United States village
August 20, 1804	Sergeant Floyd dies, the only member of expedition to die during the trip
November 2, 1804	Set winter camp among the Mandans and Hidatsas at Fort Mandan
February 11, 1805	Sacagawea gives birth to Jean Baptiste Charboneau
April 7, 1805	33 members of expedition head west; remainder take keelboat to St. Louis
August 12, 1805	Lewis crosses Lemhi Pass into present-day Idaho
August 13, 1805	Encounter 3 Shoshoni women and 1 unfurled flag outside of United States
August 17, 1805	Sacagawea recognizes her brother, Chief Cameahwait
August 19, 1805	Clark conducts reconnaissance of Salmon River
September 4, 1805	Expedition crosses Continental Divide at Lost Trail Pass
September 13, 1805	Expedition reenters Idaho at Lolo Pass
September 20, 1805	Clark and advance party enter the Weippe Prairie and meet the Nez Perce
September 26, 1805	Start building canoes near present day Orofino
October 10, 1805	Canoes reach Snake River and leave Idaho
November 7, 1805	Expedition reaches Pacific Ocean, " <i>We are in view of the Ocean</i> "
November 24, 1805	Expedition votes on location of winter camp, select south side
December 7, 1805	Fort Clatsop site selected
December 23, 1805	Expedition members move into Fort Clatsop in what is now Oregon

March 23, 1806	Expedition leaves Fort Clatsop and begins return journey
May 5, 1806	The Corps of Discovery reenter Idaho and camp near mouth of Potlatch River
May 14, 1806	Party makes camp at “Camp Chopunish” along the Clearwater River near present day Kamiah
May 27, 1806	Sergeant Ordway and three men head for Indian fishing grounds on Snake River
June 2, 1806	Ordway party returns from Snake River and the Camas Prairie
June 9, 1806	Party departs for the Lolo Trail
June 17, 1806	Expedition finds deep snow and conducts their only retreat
June 24, 1806	Expedition departs Weippe area in the second attempt to cross the trail
June 28, 1806	Expedition reaches Lolo Pass and leaves Idaho
July 3, 1806	Party splits in two; Lewis heads east along the Blackfoot River; Clark heads south
July 26, 1806	Lewis’ group kill two Blackfeet attempting to steal horses; only hostile deaths on the trip
	The two groups rejoin in present day North Dakota
September 23, 1806	The expedition returns to St. Louis.
1807	Sargeant Patrick Gass’ journal published. Meriwether Lewis appointed Governor of Upper Louisiana
October 9, 1809	Meriwether Lewis dies at age 35 in Tennessee
December 20, 1812	Sacagawea dies at Fort Manuel, age about 25 (c.1788-1812)
1822	William Clark appointed Superintendent of Indian Affairs by President Monroe
1838	William Clark dies at age 68 in St. Louis, Missouri
May 16, 1866	Jean Baptiste “Pomp” Charboneau dies in Danner, Oregon
April 2, 1870	Last living member of the expedition, Patrick Gass, dies at age 99

Idaho State Capitol

Boise, in the southwestern Idaho area known as the Treasure Valley, became the territorial capital in 1865 and the state capital when Idaho was admitted to statehood in 1890.

Territorial Capitol

More than twenty years after the Idaho legislature located the capital in Boise, and after several unsuccessful attempts to get the U.S. Congress to build a capitol, territorial secretary D.P.B. Pride persuaded the legislature to appropriate \$80,000 for a territorial capitol building

in Boise. The legislature approved the act authorizing the issuance of bonds on February 2, 1885. However, construction was delayed when residents of the city of Hailey obtained an injunction. They felt that the capitol should be located at Hailey.

The building of red brick in the Norman style of architecture was finally completed in 1886. It measured 123 feet X 81 feet with five floors including the basement, but it had no indoor plumbing. It was used from 1886 to 1912.

State Capitol

In 1905 the legislature created the Capitol Building Commission, with the power to issue bonds, negotiate and sign contracts, and approve architectural plans. The commission purchased Central School which stood in the block next to the territorial capitol and also negotiated the purchase and closure of Seventh Street between Jefferson and State Streets in order to enlarge the building site.

Construction of the present building was begun in 1905. The original phase included only the central section and dome. The architectural design was supplied by J.E. Tourtellotte and Company. It is in the standard neoclassic style, patterned after the U.S. Capitol. Construction of the central section and dome was completed in 1912. Tourtellotte and Hummel were awarded a contract in 1912 to design wings for the building and construction began in 1919. The Central School building was demolished to make way for the west wing and the Territorial Capitol building was razed for construction of the east wing. The project was completed in 1920.

Capitol Dome Exterior

The final cost of construction was \$2,098,455.05. The building has a total floor area of 201,720 square feet and, including the dome with the 5'7" bronzed solid copper eagle on top, is 208 feet high. The original plans called for a flag atop the dome, but in the course of construction the eagle was substituted. The outside walls are faced with sandstone from state owned Tablerock east of Boise. Convict labor was used to quarry and deliver the sandstone blocks, some weighing up to ten tons. The shape of the sandstone blocks on the first floor resembles logs and gives the lower part of the building the appearance of a log cabin.

Inside the capitol, large pillars of steel and brick covered with a veneer of scagliola (a mixture of granite, marble dust, gypsum and glue) rise in the rotunda to the dome and central structure of the building. The scagliola veneer was created by an entire family of Italian artisans. In 1976, the veneer on the pillars was repaired by injecting marble dust and glue into the cracks with hypodermic needles. The surface was then covered with a polyurethane finish to protect it.

The corridors, floors, wainscoting and base throughout the building consist of 50,646 square feet of artistically carved marble. There are four kinds blended into the interior: green swirled Vermont marble on the walls, gray Alaska marble with inlaid patterns of near black Italian marble in the floors and four grand staircases, and reddish pink Georgia marble in the trim.

Capitol Mall

The capitol building sits in the southwest corner of the mall complex, which is bounded by Jefferson Street on the south, Eighth Street on the west, Washington Street on the north, and Third Street on the east. Since 1963 six new structures have been built in the complex. These include the State Library and Archives, the Supreme Court Building, the Pete T. Cenarrusa building, a five story parking structure, the Len B. Jordan Building, and the Joe R. Williams Building.

The mall area includes many older buildings as well: the Capitol Annex (old Ada County Courthouse), Marion Hall, and the Governor Alexander House built in 1897 by Governor Moses Alexander.

All of the mall buildings are heated with geothermal water. Idaho's Capitol building is the only one in the United States heated by geothermal water. A pumping station in the parking lot north of the Len B. Jordan Building can provide enough hot water to heat 750,000 square feet of building space on all but the most severe winter days. The 3,000 foot well can produce about 1,000 gallons per minute of water at 165° F under natural artesian pressure. The system was first used in the winter of 1982 - 83, and was projected to save about \$150,000 per year in natural gas heating bills.

Capitol Restoration

The nine-member Idaho State Capitol Commission was created in 1998 and charged with completing a master plan for the restoration/renovation of the State Capitol Building. The Legislature appropriated \$120,000, and the design team of CSHQA/Isthmus was competitively selected to develop a Master Plan, which was completed in 2000. At that time the design team estimated the total cost at \$64 million.

In 2001 the Legislature provided a one-time appropriation of \$32 million and authorized the Commission to issue bonds for the remaining \$32 million. However, in early 2002, as a result of projected shortfalls in state revenues, the Commission withdrew its request to issue bonds and returned the \$32 million appropriation to the State's General Fund. The restoration project was placed on hold.

Despite the delay of the entire project, the Commission was able to see that the exterior envelope of the structure was preserved and restored to protect any further deterioration to the interior structure. Between 2001 and 2002 about \$1.5 million was appropriated for Phase I Exterior Renovation. The following year the Legislature appropriated nearly \$3 million to complete Phase II Exterior Renovation. All exterior work was completed Spring of 2006.

The 2005 Legislature revived hope for the interior restoration by extending the cigarette tax so that a portion of the revenue collected, beginning FY07, is deposited into the Permanent Building Fund. The annual amount, estimated at \$20 million, is earmarked for the repair, remodel, and restoration of the Capitol and state facilities pertaining to the Capitol restoration.

The 2006 Legislature passed House Concurrent Resolution 47 authorizing the Capitol Commission and the Department of Administration to enter into agreements with the Idaho State Building Authority to finance the restoration and construction of two 2-story wings on each end of the Statehouse.

Subsequently, the ISBA secured \$120 million in bonds; the Idaho Div. of Public Works hired CSHQA as Architect/Engineer, Lemley/3D+I as agency for the owner, McAlvain/Hummel as design/build professionals to construct the core and shell of the new underground wings, and finally Jacobson-Hunt Joint Venture as Construction Manager-at-risk to lead the restoration's numerous specialty sub-contractors through this once-in-a-lifetime task.

In his FY08 budget, Governor C.L. "Butch" Otter proposed that only the restoration of the existing Capitol be restored, and not the addition of the 2-story underground wings. However, he and legislative leadership eventually negotiated a compromise to proceed with the addition of two single-story underground wings and to reassign the use of the first floor of the Capitol for use by the Legislature, rather than the Executive Branch.

The Capitol restoration work will include the following: restore and refinish windows, repair marble flooring, repair decorative plaster, restore wood floors, refinish wood doors, restore hardware, replace/refurbish light fixtures, upgrade electrical, complete smoke and fire detection system, install fire sprinkler system throughout, improve exterior lighting, add emergency power generator, install new HVAC system, replace sewer piping, replace hot water system, improve exiting from basement, provide vertical circulation cores from the legislative chambers level to the new garden level wings, safer access to roof domes, add exiting hardware, provide accessible toilet rooms, install ADA accessible elevator (gurney size).

The underground expansion will provide: Approximately 25,000 square feet on each side of the Capitol, larger legislative hearing rooms and opportunities to move various functions out of the Capitol Building, such as large mechanical spaces, data centers, kitchens, and dining facilities.

Congressional Qualifications

<i>Officer</i>	<i>Selection</i>	<i>Method of Qualification</i>	<i>Term of Office</i>
United States Senator	Elected by greatest number of votes in general election	30 years of age, US citizen for at least 9 years and an Idaho resident	Six years
United States Congressman	Elected by greatest number of votes in general election	25 years of age, US citizen for at least 7 years and an Idaho resident	Two years

Article I of the U.S. Constitution states that Congress will consist of two separate houses. A lawmaking body with two houses is called a bicameral legislature. The two houses that make up the U.S. Congress are the House of Representatives and the Senate. Congress is the primary lawmaking body in the U.S. government. To solve problems, Members of Congress introduce legislative proposals called bills or resolutions. After considering these proposals, Members vote to adopt or to reject them. Members of Congress also review the work of executive agencies to determine if they are following government policy, and may introduce new legislation based on what they discover.

Bills accepted by both houses of Congress and by the President become law. When the President vetoes a bill and returns it to Congress, Congress reviews the reasons for the rejection but may still act to pass the bill. The U.S. Constitution allows Congress to override the President's veto with a two-thirds majority vote of both the House and the Senate.

United States Senator *Michael D. Crapo*

Senator Crapo is serving his second term as a United States Senator from Idaho, having previously served three terms as Idaho's 2nd District Representative in the U.S. House of Representatives. U.S. Congressman First District *Walt Minnick*

Walter C. “Walt” Minnick is serving in his first term as the Congressman from Idaho’s First Congressional District.

Walt serves on the House Agriculture Committee, where he helps craft policy for Idaho farmers and where he helps oversee the U.S. Forest Service lands throughout Idaho and the west. Walt also serves on the House Financial Services Committee, where he helps craft the nation’s economic policy and regulations. Both committees fit well into Walt’s focuses on crafting a sensible, consensus-based approach to public lands, improving care and services for veterans, and creating more good-paying jobs here in

Idaho.

Walt grew up near Walla Walla, Washington, on his family’s dryland wheat farm. Minnick earned an economics degree from Whitman College in his hometown before moving east. He graduated from Harvard Business School and Harvard Law School, and spent two years in the U.S. Army. From there he went to work in the White House Office of Management and Budget, but resigned from the Nixon Administration in protest the day after the president fired a special prosecutor investigating the Watergate burglary.

Walt moved to Idaho soon after and began his 35-year career as a businessman. He went to work for Trus Joist, a wood-products company headquartered in Boise. He rose quickly through the ranks, and would eventually serve more than 15 years as its CEO, growing the company to more than \$700 million in sales. After an unsuccessful run for the U.S. Senate in 1996, Walt founded Summerwinds, a company which has grown into one of the 10 largest retail-nursery chains in the country. He resigned as chairman of the board after winning election to Congress in November 2008.

Walt has served a host of foundations and on numerous boards, but has a special love for education. He has been a trustee for two universities, co-founded a statewide initiative by businesses to help improve Idaho education and helped guide the Boise State University business school through accreditation. Walt is also an avid outdoorsman with a deep affection for Idaho’s backcountry. When not serving in Congress, he is often back home in Idaho rafting rivers, fishing mountain lakes and hiking peaks.

Walt has four children and three grandchildren. He is married to A.K. Leinhart-Minnick.

U.S. Congressman
Second District
Michael Simpson

Michael (Mike) K. Simpson is serving his sixth term in the House of Representatives for Idaho's Second Congressional District.

Mike serves on the House Appropriations Committee. His is the Ranking Member for the Subcommittee on Interior and Environment. He also serves on the Energy and Water Development Subcommittee. These committee's have jurisdiction over funding for a number of programs critical to Idaho, including the Department of Energy, the Department of the Interior, the Forest Service, our National Parks, the National Endowment for the Arts, and Smithsonian Institute. In

addition to his responsibilities on the Appropriations Committee, Congressman Simpson also serves on the House Budget Committee.

Simpson is one of the House's leading advocates for a new energy policy and a renewed commitment to research and development of improved nuclear energy technologies. Mike has also gained national attention for his bill to split the massive, overburdened 9th Circuit Court of Appeals as well as his bill, the Central Idaho Economic Development and Recreation Act which addresses the concerns of economic growth and stability for rural Idaho and resolves long time wilderness debate over the Boulder-White Clouds.

His political career began in 1980, when he was elected to the Blackfoot City Council. In 1984, he was elected to the Idaho Legislature where he served until 1998, the last six years serving as Speaker.

Simpson was born in Burley, Idaho and raised in Blackfoot. He graduated from Utah State University and Washington University School of Dental Medicine in St. Louis, Missouri. After graduation, he joined his father and uncle at the Simpson Family Dental Practice in Blackfoot.

Mike is an avid golfer and enjoys painting. He has been married to his wife Kathy for 38 years.

In addition to his legal duties, he serves as a member of the State Board of Land Commissioners and the State Board of Examiners.

Superintendent of Public Instruction

Tom Luna

Tom Luna was sworn in as Idaho Superintendent of Public Instruction on January 1, 2007. Since he took office, Tom has worked diligently to raise student achievement by creating a customer-driven public education system that meets the needs of all students and ensures that every student will graduate from high school prepared to live, work and succeed in the 21st century. Throughout his term, Tom has made an effort to travel across the state of Idaho and tour schools in every region. In the first two years, Superintendent Luna has visited more than 65 school districts and charter schools in urban, suburban and rural parts of our great state.

Before becoming Idaho's Superintendent of Public Instruction, Tom was a successful businessman. He was the president of Scales Unlimited Inc., a company he has owned for more than 20 years in the Treasure Valley. Two of his brothers now run the business.

Tom first got involved in the state's education system by serving on the Nampa School Board for seven years, including three years as chairman. Since then, Tom has served in education at the local, state and national levels.

Tom was appointed under former Governor Phil Batt to lead the Idaho Achievement Standards Commission. Under former Governor Dirk Kempthorne, he was appointed to chair the Idaho Assessment and Accountability Commission. The success of these two commissions resulted in the popular Achievement Standards and the Idaho Standards Achievement Test (ISAT), both useful tools for teachers and parents.

In March 2003, President Bush appointed Tom to serve as a senior advisor to U.S. Secretary of Education Rod Paige. Tom traveled the country on behalf of President Bush and Secretary Paige, focusing on rural education and school choice, two issues that greatly affect Idaho.

Tom returned to Idaho in March 2005 where he continued to advocate for quality public education until he was elected state superintendent in November 2006.

Tom originally moved to Idaho with his wife Cindy 27 years ago to attend college at BYU-Idaho (formerly Ricks College). Tom also attended Boise State University and later graduated from Thomas Edison State College. Tom Luna and his wife Cindy have raised six children in Idaho. They are the proud grandparents of five grandchildren. Five of their children have graduated from public schools in Nampa and his youngest son currently attends public school.

The Idaho Department of Commerce works to create jobs and advance the welfare and prosperity of its citizens, upgrade public facilities necessary for economic growth and promote Idaho's products, people and places. Services provided include:

- **BUSINESS/ECONOMIC DEVELOPMENT SERVICES** providing resources to help Idaho businesses start up, expand and find new markets; attract new businesses to Idaho; and fund local economic development efforts.
- **THE COMMERCIAL INNOVATION DIVISION** helps entrepreneurs create new businesses and job opportunities across the industry sector; bolsters industry-related research and development activities; and brings together the state's government, education, private sector and research resources to foster long-term growth in science and technology.
- **COMMUNITY AND RURAL DEVELOPMENT** provides financial and technical assistance to Idaho's cities and counties for construction and rehabilitation of public facilities necessary to support economic diversification, job creation, business expansion and a sense of community.
- **INTERNATIONAL TRADE** helps Idaho's businesses export goods and services, develops new markets, increases foreign awareness and acceptance of Idaho's products and services, attracts international investment and coordinates the state's protocol efforts.
- **TOURISM DEVELOPMENT** works to expand Idaho's tourism and recreation industry by marketing the state's travel opportunities at home and abroad; distributing grants to communities to promote tourism; developing, soliciting and promoting tourism events and attractions; and developing the state's film industry.
- **MARKETING, COMMUNICATION AND RESEARCH** works with all Commerce divisions to create targeted marketing plans, public relations campaigns, and positive image and branding programs for Idaho. This team gathers, maintains and disseminates economic and demographic data.

Legislative Branch

The Idaho Legislature is responsible for translating the public will into public policy for the state, levying taxes, appropriating public funds, and overseeing the administration of state agencies. These responsibilities are carried out through the legislative process — laws passed by elected representatives of the people, legislators. Since statehood in 1890, Idaho's legislators have enjoyed a rich and successful history of charting the state's growth. Much of that success can be attributed to the fact that Idaho's legislators are "citizen" legislators, not career politicians. They are farmers and ranchers, business men and women, lawyers, doctors, sales people, loggers, teachers. Elected for two-year terms and in session at the Capitol just three months each year, Idaho's citizen legislators are able to maintain close ties to their communities and a keen interest in the concerns of the electorate.

The Idaho Legislature is committed to carrying out its mission in a manner that inspires public trust and confidence in elected government and the rule of law. The mission of the Legislature is to:

- Preserve the checks and balances of state government by the independent exercise of legislative powers;
- Adopt a system of laws that promote the health, education and well-being of Idaho's citizens;
- Preserve the state's environment and ensure wise, productive use of the state's natural resources;
- Carry out oversight responsibilities to enhance government accountability; and
- Raise revenues and appropriate monies that support necessary government services.

The Chambers

The Idaho State Capitol, following the same classical style of architecture as our nation's Capitol, was started in 1905 and the central portion was finished in 1911. The East and West wings occupied by the Legislature were finished in 1921.

During 1968, the Idaho Senate and House of Representatives chambers, located on the third floor, underwent extensive remodeling for the first time since 1921. The chambers, where the members sit while in session, were enclosed with walls, new desks were installed on risers and carpeting was added. In the balcony, new spectator seating was built. Modern acoustics, public address systems, lighting and ventilation were installed. These changes were part of a long-range plan for a complete renovation of the third and fourth floors. Plans included the adding of a central message center and lounge for the members and the remodeling of the offices occupied by the employees of the Legislature and the committee meeting rooms. This phase of the remodeling was completed during 1970.

The Membership

Presently, the Idaho Legislature is composed of 35 Senators and 70 Representatives elected for two-year terms. The state is divided into 35 legislative districts, each represented by one Senator and two Representatives. Reapportionment, which must take place soon after the U.S. Census figures are published every ten years, realigns legislative districts proportionately with the census population totals. This had been the responsibility of the Legislature, but an amendment to the Idaho Constitution was adopted in 1994 that created an independent commission to reapportion in 2000 and thereafter.

Elections are held in November of even-numbered years, and the newly elected legislators officially take office December 1 following the election. Representatives and senators must be citizens of the United States, electors of the state and residents of their legislative district for at least one year prior to election.

Legislative compensation is established by a citizens committee, subject to rejection by the full Legislature. Legislators receive \$15,646 per year, plus expenses for housing during

the session, and \$1,700 for office expenses. The President Pro Tem and Speaker receive an additional \$3,000 per year.

The Sessions

Until 1969, sessions of the Idaho Legislature were held every two years. In November of 1968, the citizens of Idaho approved a Constitutional Amendment which authorized annual sessions. Since 1969, the Idaho Legislature convenes each January on the Monday on or closest to January 9th.

Extraordinary sessions of the Legislature may be called only by the Governor by proclamation and legislators may then act only upon those subjects specified in the proclamation. Extraordinary sessions are limited by the Constitution to 20 days per session.

The Officers

Presiding over the Senate is the Lieutenant Governor, who is not a member of the Senate but an elected official. When presiding over the Senate, he is designated the President of the Senate. The Senate also has a President Pro Tempore, who is elected each session by the Senate membership. In the House of Representatives, the Speaker of the House presides over the sessions. He is elected at the beginning of the session by the members and is a member of the majority party.

The majority party of both houses also selects majority and assistant majority floor leaders, who assist in the orderly process of the session, along with the minority and assistant minority floor leaders, who are elected by the members of the minority party.

The Speaker of the House, in cooperation with the members of the majority party, assigns the chairmanships of all committees and the memberships of the committees in the House. In the Senate, the President Pro Tem, with the approval of the Senate, assigns members to committees.

The President of the Senate and the Speaker of the House assign all bills to committees as they are processed “across the desk” during the sessions.

Lobbyists

Any person who contacts a legislator or a legislative committee with the intent to influence the approval, modification or rejection of any legislation is a lobbyist. If this person accepts payment for his services as a lobbyist, he must register with the office of the Secretary of State and comply with the “Sunshine Law” for political funds and lobbyist disclosure.

The Sunshine Law for Political Funds and Lobbyist Activity Disclosure, (Title 67, Chapter 66, *Idaho Code*), was enacted into law by an initiative in the 1974 general election by 78 percent voter approval. The law was effective upon the Governor’s proclamation on November 27, 1974.

Registered lobbyists are required to file periodic reports of their activities which disclose contributions and expenditures. The following tables are from records on file in the Secretary of State’s office.

The Legislature at Work

Each daily session of each house of the Legislature begins with the roll call of the members and a prayer by the Chaplain, followed by the Pledge of Allegiance.

Traditionally, the sessions convene each morning and last until all immediate business to be considered is finished. In the early morning and late afternoon, committee meetings are scheduled to prevent any conflict with the sessions. Late in the session, late afternoon sessions are common. The sessions held at the beginning of the year are of a shorter duration as committees are meeting much of the time to consider legislation referred to their committees.

Some of the activity on the floor is necessary daily routine. For this reason, at times, members will be away from their desks, perhaps testifying for their own bills before Senate or House committees. Others may be involved in hurried conferences with other members, or be seeing constituents or groups from their home districts who are visiting the Capitol. Some of the informal conferences on controversial issues will occur on the floor itself.

Press, radio and television correspondents assigned to the Legislature have been allocated desks along the sides of the podium of the chamber floor so they can follow closely the session business. Most of the media quarters are located in the basement of the Capitol in the Rotunda area.

The Committee Structure

The House of Representatives has 14 committees and the Senate has 10. Committee membership is determined basically by the interest of the individual members. Although no one member can be expected to be expert in all fields, the vast majority of the members, through training or inclination, are highly conversant in certain areas. Effort is made to see that each member is assigned the committee of his choice. When appointments of committee chairmanships are made, it is customary to appoint a member of the majority party as chairman.

Once the legislative session gets underway, the committees concern themselves with all bills assigned to them. Those interested in a particular bill are encouraged to testify before the committee to which the bill is assigned.

Committee study guarantees a fair and impartial hearing upon each bill before committee members vote upon its merits and then determine whether or not it should be sent out to the Senate or House for consideration by the entire body. Much of the decision-making and evaluation of bills, or proposed laws, is done by committees. Usually the respective houses will follow the recommendations of its committees. However, the members who support or oppose bills will often speak on controversial measures in an attempt to influence the final vote by the entire House or Senate.

The Voting

The members are seated at desks facing the Speaker or President. Their desks have microphones to be used when addressing the session. When members wish to address the House, they request recognition from the presiding officer.

The members of the House of Representatives vote through electric voting boards at the sides of the chamber. By punching a button on their desk, they indicate “yes” or “no” votes through the lighting up of a green or red bulb alongside their names on the boards. These votes are automatically totalled. The presiding officer announces the vote after the machine has recorded the same. In the Senate, voting is done by voice roll call vote and recorded on a tally sheet by the Secretary of the Senate. The President of the Senate then announces the vote.

A majority vote in the House and the Senate is 51% of the members present at the time of the vote. There is an exception to this rule which applies in certain issues when a two-thirds majority is required.

Senate and House Staff

The staff, at the desks just below the Speaker and the President, process all bills and resolutions through the Legislature.

The Secretary of the Senate and the Chief Clerk of the House, the parliamentarians of their respective chambers, administer the legislative process. Directly responsible to the presiding officers, they are in charge of keeping a record of all business transacted during the sessions. They are responsible for the distribution of all printed bills and in charge of all documents for the session. They record and process each document for each day's business. A bill is said to be "read across the desk" when this processing has been completed.

The Idaho Legislature employs approximately 70 to 80 people for a session who fill various positions including the Sergeant at Arms, who is charged with keeping order during sessions, journal clerks, docket clerks, pages, messengers, secretaries, committee clerks and doorkeepers.

Information Center

The main function of the Information Center is to provide a communication link and personal contact between legislators and their constituents. It accepts telephone calls, faxes, and e-mail messages. It has a Copy Room to make copies of bills. The Information Center provides tours of the Capitol for school groups, civic groups and any other group interested. While no formal tours are available during the interim between legislative sessions, the Governor's Office on the second floor of the Capitol has self-guided tour pamphlets available for interested visitors. The Information Center also schedules use of the fourth floor rotunda area and Gold Room and provides a weekly social calendar for the Legislators.

Other information available at the Information Center includes: Committee schedules, Daily Data, Mini Data, and the Legislative Directory distributed by the Legislative Services Office. Also, internet access is available for bills, committees agendas, and second and third reading calendars.

The Information Center is staffed with a director, an information specialist, four telephone operators, copy machine operators, tour guides, and messengers. The staff is hired by the House Attache Committee. The Legislative Information Center was established in 1974.

Publications

Three publications are printed daily by the Legislature. The Senate and House Journals are the official record of House and Senate proceedings and give a chronological account of the daily proceedings, including the roll call vote upon all actions which require a recorded vote.

The Journals are printed during the night and available to members before each session in the morning. The Mini-Data, published daily except Monday and available before the session begins each morning, lists House and Senate bills in numerical order, gives an abbreviated description and the last action on each bill. The Daily Data is published weekly on Monday, lists all bills and resolutions in numerical order, gives more detailed descriptive information and

recaps all action on that bill, including roll call votes. The Daily Data also includes a complete subject index of legislation introduced. Each house of the Legislature prints and distributes all bills, resolutions and memorials introduced the previous legislative day.

Copies of these publications and all bills, resolutions and memorials are available from the Legislative Mail Room located in the basement of the Capitol and on the Legislature's web site (www.legislature.idaho.gov).

Legislative Council

The Legislative Council oversees the management responsibilities and permanent staff of the Legislature. The Council, established in 1963, consists of the President Pro Tempore of the Senate, the Speaker of the House of Representatives, the majority and minority leaders of each house, four senators appointed by the parties of the Senate, two from each party, and four representatives chosen in caucus by the parties of the House of Representatives, two from each party. The Legislative Council meets twice annually, once in the spring and once in the fall.

Joint Finance-Appropriations Committee

The Senate Finance Committee and the House Appropriations Committee meet as the Joint Finance-Appropriations Committee (JFAC) to establish the state budget. Meeting daily through most of the legislative session, JFAC members review the executive budget and budget requests of each state department, agency and institution, including requests for construction of capital improvements, as well as other requests for appropriations submitted to the Legislature. JFAC's recommendations on agency budgets are submitted to the Legislature in the form of appropriation bills, and rarely fail to be approved by the full Legislature. JFAC has also been asked by the Legislative Council to review legislative audits of state and local governments.

Legislative Services Office

The Legislative Services Office was created by the Legislature in 1993 to consolidate the nonpartisan staff support to Idaho's citizen legislators. In an effort to coordinate services, a Director of Legislative Services was named to oversee three formerly separate offices. Functions of the Legislative Services Office include:

- *Budget and Policy Analysis*: assists legislators with the state's budget-making process and

provides policy advice to individual legislators and legislative committees.

- Legislative Audits*: conducts financial post-audits of state agencies — an effort to ensure state and local government agencies spend funds properly and in accordance with government accounting standards.

- Research and Legislation*: conducts research for legislators, drafts legislation, staffs legislative study committees, reviews administrative agency rules, and provides information on the legislative process and legislative history to the public and other state agencies.

- Information Technology*: maintains the Legislature’s comprehensive computer network, which links all legislative and staff offices, and supports other legislative technology initiatives.

Streamlining legislative staff services represents the Legislature’s commitment to “reinventing government” and improving the way government works. An effort to modernize services, the team management concept encourages communication and coordination among all areas of legislative support staff.

Office of Performance Evaluations

Under the direction of the Joint Legislative Oversight Committee, a staff of performance evaluators examines the effectiveness of state agency administration, makes recommendations to the Legislature about ways in which state agency operations might be improved, and helps legislators ensure that agencies operate as intended to maximize the quality of state services provided to Idaho citizens.

Members of the Joint Legislative Oversight Committee (JLOC) are appointed by the majority and minority party leaders of the Senate and the House. The two co-chairman must be from different houses and different political parties, and are appointed by the Legislative Council. By law, JLOC includes an equal number of members from each major party and an equal number of members from each house. Membership includes the co-chairs of the Joint Finance-Appropriations Committee or their designees.

Miscellaneous Legislation

In addition to bills, the Idaho Legislature considers the following types of legislation:

JOINT MEMORIAL: A petition usually addressed to the President, the Congress, or some official or department of the United States Government, requesting an action which is within the jurisdiction of the official or body addressed. A Joint Memorial is acted upon in essentially the same manner as a bill, and must be passed by both houses. It is not signed by the Governor.

JOINT RESOLUTION: A measure requiring approval of two-thirds majority of both houses; does not have to be signed by the Governor; and is used only to propose amendments to the Idaho Constitution and to ratify amendments to the United States Constitution.

CONCURRENT RESOLUTION: A measure not having the force of law, and normally used for one of three purposes — to manage and regulate the internal affairs of the Legislature, such as providing for the printing of bills; to express appreciation on the part of the Legislature; or to direct interim studies by the Legislative Council or by executive agencies. Essentially, a concurrent resolution is acted upon in the same manner as a bill. It is not signed by the Governor.

Referendum and Initiative

The people of the State of Idaho have the power to approve or reject at the polls any act or measure passed by the Legislature. This power is known as the referendum and is granted by the State Constitution in Article III, Section 1. This section also grants the people the power to propose laws and enact them at the polls independent of the Legislature. This power is known as the initiative.

Legal voters may, under such provisions set forth in Chapter 18, Title 34, *Idaho Code*, initiate legislation for consideration by the voters, or demand a referendum vote by the people on any act or measure passed by the Legislature. The referendum was first used in 1936; the initiative in 1938.

To date, twenty-eight initiatives have been attempted, fourteen have been approved by popular vote. Four referendums have been attempted, and three approved.

How a Bill Becomes a Law

A bill is a proposal for the enactment, amendment, or repeal of a statute or for the appropriation of public money. A bill may originate in either the House or Senate (with the exception of revenue measures, which must originate in the House of Representatives). It must be passed by a majority vote of each house of the Legislature on a roll call vote and not be vetoed by the Governor. In the event the Governor vetoes a bill, it can become law if passed again by both houses of the Legislature by two-thirds of those persons present in each house. A bill can become law without the Governor's approval if it is not vetoed by the Governor within five days (Sundays excepted) after presentation to him during the session. After the Legislature adjourns "sine die" the Governor has ten days to sign a bill into law or to impose a veto.

A bill cannot become law until it has been read on three separate days in each house of the Legislature previous to the final vote on the bill. In the case of urgency, two-thirds of the members of the house where the bill is pending may vote to dispense with this provision.

Introduction

A bill may be introduced in the Legislature by a member, group of members or by a standing committee. After the 20th day of the session in the House and the 12th day in the Senate, no bill may be introduced except by committee. After the 36th day no bill may be introduced except by certain privileged committees. In the House: State Affairs, Appropriations, Education, Revenue and Taxation, and Ways and Means committees. In the Senate: State Affairs, Finance, and Judiciary and Rules committees.

After the bill has been drawn in proper form for introduction, the original bill and fifteen copies are presented to the Chief Clerk or the Secretary of the Senate who assigns the House or Senate bill a number by which it will always be known. The numbered bill is then introduced by reading it on the Order of Business "Introduction and First Reading of Bills."

Bills which have been passed by the other house are received and placed on the same order of business and treated in the same manner as new bills in the house of origin.

First Reading

The bill is read the first time and is then referred by the Speaker of the House of Representatives to the Judiciary, Rules and Administration Committee for printing. No law can be passed except by bill, and no bill can become law without first being printed. After the bill is printed, it is reported back by the Judiciary, Rules and Administration Committee and is referred to a standing committee by the Speaker.

Reports of Standing Committees

Each committee to which the bill is referred conducts a study which may include research, hearings, expert testimony, statements of interested parties, and any information which may help the committee judge the scope of the proposed law and determine its effect.

A committee that reports out a bill after completing its study may report it out with one of the following recommendations:

1. Do Pass
2. Without recommendation
3. To be placed on General Orders for amendment
4. Do not pass (bills are seldom released from committee with this recommendation)
5. Withdrawn with the privilege of introducing another bill
6. Be referred to another standing committee

If a committee reports a bill out and does not recommend that the bill be amended or other action to keep it from going to the floor, the bill is then placed on second reading.

Many bills are not reported out by committees and “die” in committee. Special rules of the House apply when the committee does not desire to report out a bill for consideration by the entire House.

Second Reading

When a bill is reported out of committee, it is placed on the second reading calendar and is read again. The following legislative day, the bill is automatically on third reading unless other action has been taken.

Third Reading

The Clerk is required to read the bill at length, section by section, when it is on the Order of Business “Third Reading of Bills.” It is normal procedure, however, for the members to give unanimous consent to dispense with this reading at length.

It is at third reading that the bill is ready for debate, and the final vote on the passage of the bill is taken at this time. Each bill is sponsored by a member who is known as the “floor sponsor” and who opens and closes debate in favor of passage of the bill. After debate has closed, the members vote on the electronic voting machine. Each member present can cast either an “aye” or “nay” vote. A bill is passed by a majority of those present.

If the bill fails to pass, it is filed by the Chief Clerk. If the bill is passed, it is transmitted to the Senate where it may go through a similar process.

Senate Action on House Bills

After the final action by the Senate on a House bill, it is returned to the House with a message explaining the Senate’s action. The message is read to the House. If the bill passed the Senate without amendment, it is enrolled by the House Judiciary, Rules and Administration Committee, signed by the Speaker of the House and the President of the Senate and transmitted to the Governor for his action.

Committee of the Whole

When a printed bill is to be amended, it is referred to the Committee of the Whole for amendment.

At the proper order of business, the House resolves itself into the Committee of the Whole House and the entire membership sits as one committee to consider changes to both

House and Senate bills.

When a House bill has been amended by the Committee of the Whole, and the committee's report on the amendment(s) accepted by the House, it is referred to the engrossing committee (in the House, the Judiciary, Rules & Administration Committee) where the amendments are inserted into the bill and the engrossed bill is then placed back on the calendar to be considered as a new bill which must receive three readings.

Governor's Action

After receiving a bill passed by both the House and the Senate the Governor may:

1. Approve the bill by signing it within five days after its receipt, Sundays excepted.
2. Allow the bill to become law without his approval by not signing it within the five days allowed.
3. Disapprove (veto) the bill within the five days allowed and return the bill to the house of origin giving his reason for disapproval. The exception here is that in the event the Legislature has adjourned "sine die" the Governor has 10 days to veto a bill or 10 days to let it become law without his signature.

A bill may become law over the Governor's veto if both houses vote to override the Governor's veto by a two-thirds vote of the members present in each house.

When a bill is approved by the Governor or becomes law without his approval or over his veto, it is transmitted to the Secretary of State for assignment of a chapter number in the Idaho Session Laws. The bill then becomes law July 1, except in the case of an emergency clause or a retroactive clause.

Reapportionment

On March 23, 2001, Idaho's first Commission on Reapportionment convened to establish legislative and congressional district boundaries to be in effect for the next decade beginning with the 2002 election.

Once every ten years after each census, as required by law, or when directed by the Idaho Supreme Court, Idaho's legislative and congressional districts are redrawn. For the first time, Idaho used a citizens' commission to redraw legislative and congressional district boundaries. Before Idaho voters amended the state Constitution in 1994 to create a Reapportionment Commission, redistricting was done by a committee of the Idaho Legislature.

The original and still primary reason for conducting a national census every ten years is to determine how the 435 seats in the United States House of Representatives are to be apportioned among the 50 states. Each state receives its share of the 435 seats in the U.S. House based on the proportion of its population to that of the total U.S. population. For example, the population shifts during the 1990's will result in the Northeastern states losing population and therefore seats in Congress to the Southern and the Western states.

Apportionment determines each state's power, as expressed by the size of their congressional delegation, in Congress and, through the electoral college, directly affects the selection of the president (each state's number of votes in the electoral college equals the number of its representatives and senators in Congress). Like all states, Idaho has two U.S. senators. Based on our 1990 population of 1,006,000 people and our 2000 population of 1,293,953, and relative to the populations of the other 49 states, Idaho will have two seats in the U.S. House

of Representatives. Even with the state's 28.5% population increase from 1990 to 2000, Idaho will not be getting a third seat in the U.S. House of Representatives. Assuming Idaho keeps growing at the same rate it did through the decade of the 1990's, it will likely be 30 or 40 years (after 3 or 4 more censuses) before Idaho gets a third congressional seat.

Redistricting is the process of redrawing the boundaries of legislative and congressional districts within each state to achieve population equality among all congressional districts and among all legislative districts. The U.S. Constitution requires this be done for all congressional districts after each decennial census. The Idaho Constitution also requires that this be done for all legislative districts after each census. The democratic principle behind redistricting is "one person, one vote." Requiring that districts be of equal population ensures that every elected state legislator or U.S. congressman represents very close to the same number of people in that state, therefore, each citizen's vote will carry the same weight.

The census records population changes and is the legally recognized basis for redrawing electoral districts of equal population. In a democracy, it is important for all citizens to have equal representation.

Based on the 1990 census, each Idaho congressman represented close to 503,400 people after the last redistricting ten years ago. As the decade progressed and Idaho experienced rapid growth, particularly in its urban areas, the population of the two congressional districts have grown unevenly and beyond that ideal size. Based on 2000 census figures, our two congressmen will each represent about 647,000 people. Unlike in the U.S. House of Representatives, representation in the U.S. Senate is not based on a state's population. Each state gets two Senate seats regardless of how large or small—population wise—they are. Therefore, each state's two U.S. senators represent all of that state's citizens.

Idaho had 35 legislative districts during the 1990's—the Idaho Constitution says that there can be no less than 30 nor more than 35 legislative districts. Each legislative district is represented by one senator and two representatives. Since Idaho's legislative districts are not further split into two House of Representative districts, both representatives, like the senator, serve the entire district. Based on the 1990 census, each state legislator represented about 28,800 people after the last redistricting ten years ago. Based on 2000 census figures, each of the 105 state legislators will represent about 37,000 people to start off the first decade of the third millennium.

Chronology of Commission

March 23, 2001 — The U.S. Census Bureau delivered the Census 2000 population, race and ethnicity data for Idaho. Idaho's 2000 population: 1,293,953, a 28.5% growth rate from 1990. The growth was concentrated primarily in Kootenai, Canyon and Ada counties with the rest of the state experiencing little change in population.

June 5, 2001 — Idaho Secretary of State Pete T. Cenarrusa issued order officially forming the Commission.

August 22, 2001 — Plan C15, a two district congressional redistricting plan is approved by the commission. Plan L66, a thirty-five district legislative redistricting plan is approved by the commission.

November 29, 2001 — in *Smith et al v. Idaho Commission on Redistricting et al*, a unanimous Idaho Supreme Court ruled Plan L66 unconstitutional. Court directed the Commission to adopt a new legislative redistricting plan.

January 8, 2002 — Plan L91, a 35-district legislative redistricting plan is adopted by the Commission.

March 1, 2002 — In *Bingham County et al v. Idaho Commission on Redistricting et al*, the Idaho Supreme Court ruled Plan L91 violated the U.S. Constitution and ordered the Commission to adopt a new legislative redistricting plan.

March 9, 2002 — Plan L97, a 35-district legislative redistricting plan is adopted by the Commission.

April 19, 2002 — Idaho Supreme Court denied the final two petitions challenging Plan L97.

STATE JUDICIAL DISTRICTS

The Supreme Court, as supervisor of the entire court system, establishes statewide rules and policies for the operation of its functions and that of the district courts. The state is divided into seven judicial districts, each encompassing four to ten counties. This regional structure is designed to delegate authority to the judicial districts and to insure their participation in policy decisions while maintaining uniform, statewide rules and procedures. An administrative district judge, chosen by the other district judges in the district, performs a number of administrative duties in addition to handling a judicial case load. The administrative district judge, assisted by a trial court administrator, manages court operations in the district, assigns judges to cases, and coordinates activities of the clerks of the district courts.

Final recommendations for local court budgets and facilities are made by the administrative judge, as well as personnel decisions for the district. The administrative judge also jointly supervises the deputy clerks of the district courts. The administrative judge additionally serves as chair of the district magistrates commission, a representative body of county commissioners, mayors, citizens, and private attorneys which, among other things, appoints magistrate judges to their initial terms of office.

IDAHO COURTS

Idaho's court system today is recognized as a model for other states. Constitutional amendments in the early 1960's gave the Idaho Supreme Court management authority over the trial courts, firmly establishing the Supreme Court's rule making powers and providing a method of supervising trial operations. The judicial reform efforts which culminated on January 11, 1971, streamlined Idaho's trial courts by consolidating the various probate, justice and municipal courts into a general jurisdiction District Court, with a division for special types of actions. Thus unified, Idaho's court system is one of the nation's most modern in design.

Supreme Court

The Supreme Court of Idaho is the State's court of last resort. The Court hears appeals from final decisions of the District Court, as well as from orders of the Public Utilities Commission and the Industrial Commission. It has original jurisdiction to hear claims against the state and to issue writs of review, mandamus, certiorari, prohibition and habeas corpus, and all writs necessary to complete exercise of its appellate jurisdiction. The Idaho Supreme Court is one of the few "circuit-riding" supreme courts in the country, and holds terms of Court in Boise, Coeur d'Alene, Lewiston, Twin Falls, Pocatello and Idaho Falls.

The Supreme Court is responsible for the administration and supervision of the trial courts, as well as the operations of the staff of the Courts, the Supreme Court Clerk's Office and the State Law Library. These latter operations are located, along with the Justices' offices and courtrooms, in the Supreme Court Building in Boise.

The Supreme Court consists of five justices who are elected at large, on a nonpartisan ballot, for a term of six years with their terms being staggered so continuity on the Court will be maintained. A candidate for justice must be a qualified elector and a duly qualified attorney-at-law. The chief justice is elected by a majority of the justices, and serves as executive head of the state judiciary.

Court of Appeals

The Idaho Court of Appeals hears appeals from the district courts which are assigned by the Supreme Court. While review of decisions of the Court of Appeals may be sought from the Supreme Court, the Supreme Court is not required to grant the appeal. In most cases, decisions by the Court of Appeals are final.

The Court of Appeals has three judges, who review cases as a panel. While chambered in Boise, the judges may hear appeals arguments anywhere in the state.

Trial Courts

The district court is the trial court of general jurisdiction. A magistrate division exercises limited jurisdiction. The magistrate division, in turn, has a small claims department. While individual judges may serve either in district court cases or magistrate division cases, it is one integrated court.

The district court judges have original jurisdiction in all cases and proceedings. They may issue extraordinary writs, and may also hear appeals from the magistrate division, and certain agencies and boards. There are 39 district court judges, who sit in each of the 44 counties. They are Idaho attorneys, elected by nonpartisan ballot within the judicial district in which they serve. Each district court judge is served by a court reporter who makes a record of all proceedings and testimony in a case.

Judges of the magistrate division may hear civil cases where the amount of damages requested does not exceed \$10,000; proceedings in a forcible entry, forcible detainer and unlawful detainer; for the limited enforcement and foreclosure of common law and statutory liens on real or personal property; proceedings in the probate of wills and the administration

of estates of decedents and incapacitated persons; juvenile proceedings; criminal misdemeanor offenses; proceedings to prevent the commission of crimes; may issue warrants for the arrest or for searches and seizures; and may conduct preliminary hearings to determine probable cause on felony complaints.

There are 83 magistrate judges, with at least one magistrate judge resident within each county. Magistrate judges also hear small claims cases. These are minor civil cases where \$4,000 or less is involved. The small claims department is designed to provide a quick, inexpensive solution to such claims, including cases to recover possession of personal property up to a value of \$4,000. No attorneys are allowed in small claims cases, nor are there jury trials. Appeals from small claims decisions are taken to a lawyer magistrate judge. Additionally, seven district trial court administrators assist the Administrative District Judge and the Administrative Director of the Courts with the administration of the district court.

Administrative Director of the Courts

The Administrative Director of the Courts, acting under the supervision and direction of the Chief Justice of the Supreme Court, has a number of statutory duties which are specified in *Idaho Code* Section 1-612, including collecting statistical information about court operations, reporting the need for assistance in the handling of pending cases in the trial courts, preparing an annual report for the Supreme Court and Governor, examining the administrative and business methods and systems employed in the offices of the judges, clerks and other offices of the courts, and making recommendations to the Supreme Court for the improvement of the judicial system. The Supreme Court prescribes the following additional duties to be performed under the supervision and direction of the Chief Justice, which include:

1. Compile and prepare the annual judicial appropriations request for consideration and approval by the Court;
2. Develop and administer judicial training seminars and educational programs for the judges and court clerks of Idaho.
3. Review and recommend to the Court calendar management policies.
4. Advise the news media and the public of official functions of the Court and matters of general interest concerning the courts in Idaho.
5. Liaison for the court system as a whole with the legislature.

Supreme Court Clerk

The constitutional office of the Clerk of the Supreme Court performs a variety of important tasks for the judiciary. The clerk's office administers the processing of appeals, special writs, petitions, and provides other clerical functions of the Supreme Court and the Court of Appeals. The Supreme Court Clerk manages the calendars of both appellate courts, maintains an automated register of actions, which assures proper flow of cases and distribution of final opinions. The Supreme Court Clerk's Office is a valuable resource to district court clerks in providing assistance and advice regarding the preparation of the clerk's record and other relevant documents associated with an appeal of a trial court decision. The publication of the *Idaho Reports* is coordinated by the Supreme Court Clerk's office. Opinions of both the Supreme Court and the Court of Appeals are posted on the internet within 24 hours of their release, these opinions can be found at: www.isc.idaho.gov/judicial.html

State Law Library

The Idaho State Law Library was established in 1869 under an Idaho territorial statute. It is operated by the State Law Librarian and is open to the public. The Law Library is a research library not a lending library, that is widely used by the judiciary, public officials, lawyers, students, researchers and the general public. The state law library contains more than 130,000 bound volumes and thousands of pamphlets and unbound publications. In addition, the library is a depository for U.S. government publications.

The bound volume collection includes the reported cases of all federal and state courts of last resort, the statutes and session laws for each of the 50 states, together with some statutes and case reports of other English-speaking peoples. The State Law Library offers access to automated legal research tools such as WESTLAW and LEXIS. The internet address for the State Law Library is www.isll.idaho.gov/

Judicial Council

The Idaho Judicial Council is empowered by statute to nominate to the Governor persons for appointments to vacancies in the Supreme Court, Court of Appeals, and district courts. It may make recommendations to the Supreme Court for the removal, discipline and retirement of judicial officers. It is comprised of seven members: the Chief Justice of the Supreme Court, who is chairman, a district court judge and two lawyers appointed by the governing board of the Idaho bar with the consent of the state senate and three non-attorney members appointed by the Governor with the consent of the senate. Sitting in its disciplinary capacity, the Council may investigate complaints against justices, court of appeals judges or judges of the district courts or magistrate divisions, and in appropriate cases it may recommend to the Supreme Court the removal, discipline or retirement of a justice, judge, or magistrate judge.

CHIEF JUSTICE OF THE IDAHO SUPREME COURT *DANIEL T. EISMANN*

Justice Eismann was raised in Owyhee County and graduated in 1965 from Vallivue High School near Caldwell, Idaho. He enrolled at the University of Idaho, and in 1967 he left the University to enlist in the United States Army. He served two consecutive tours of duty in Vietnam where, as a crew chief/door gunner on a Huey gunship, he was awarded two purple hearts for being wounded in combat and three medals for heroism.

After being honorably discharged from the military, he returned to the University of Idaho where he received his undergraduate degree and then graduated *cum laude* from law school in 1976. After practicing

law for ten years, Justice Eismann was appointed as the Magistrate Judge in Owyhee County. As a magistrate judge, he was a member of the Region III Council for Children and Youth; he helped create Children's Voices, Inc., an organization to recruit, train and oversee guardians ad litem to represent the interests of neglected and abused children in court proceedings; he organized and served upon a community diversion board to handle outside the judicial system first-time juvenile offenders who committed minor crimes; and he chaired the Canyon County Juvenile Justice Task Force.

In 1995, Governor Batt appointed Justice Eismann as a district judge in Ada County. Convinced that there must be a more effective way to deal with the burgeoning drug problem, Justice Eismann began working to set up a drug court in Ada County. In 1998 Ada County was awarded a federal grant, and in February 1999 the drug court began receiving participants. Justice Eismann presided over that drug court until just prior to taking office as a Justice of the Idaho Supreme Court. The Ada County Drug Court is proving effective in getting addicts off drugs so that they can restore their lives, rebuild their family relationships, and become productive members of the community. In 1998, the other district judges elected Justice Eismann as the Administrative District Judge for the Fourth Judicial District, consisting of Ada, Boise, Elmore, and Valley Counties. While a district judge, he also served on the Ada County Domestic Violence Task Force.

In 2000, the people of Idaho elected Justice Eismann to the Idaho Supreme Court, where he began serving on January 2, 2001. He also serves as chair of the Civil Rules Committee, the Criminal Jury Instructions Committee, and the statewide Drug Court and Mental Health Court Coordinating Committee. He is a member and past-president of the Boise Chapter of the Inns of Court and currently serves on the boards of the Idaho State Bar Lawyers Assistance Program, which provides assistance to lawyers with substance abuse problems, and of the Idaho Law Foundation. He also serves on the Criminal Justice Commission created by Governor Kempthorne in 2005 and the Interagency Committee on Substance Abuse and Treatment.

In 1982, Justice Eismann married Sheila Wood, and they have three children.

Salary: \$121,006.00

Term Expires: January 2013

**IDAHO SUPREME
COURT JUSTICE
ROGER S. BURDICK**

Justice Burdick received his Bachelor's of Science degree in Finance from the University of Colorado in 1970 and graduated from the University of Idaho School of Law with a Juris Doctorate in 1974. From 1970 to 1971, he worked as a bank examiner with the Department of Finance. From 1974 to 1980, he worked with the law firm of Webb, Pike, Burton & Carlson in Twin Falls, Idaho, then as Deputy Prosecuting Attorney in Ada County, and finally as a partner with the law firm of Hart and Burdick, in Jerome, Idaho.

While with Hart and Burdick from 1976 to 1980, he served as a Public Defender in Camas, Lincoln, Jerome and Gooding Counties, as well as a general law practice. In November 1980, he was elected as Prosecuting Attorney for Jerome County. From September 1981 to September 1993, he served as Magistrate Judge in Jerome County. During that time, he was appointed the first Magistrate Member of the Idaho Judicial Council, President of Idaho Magistrate Association and Chairman of Juvenile Rules Committee, as well as numerous other committees.

In September 1993, he was appointed District Judge in Twin Falls County and has served on various Idaho Supreme Court advisory committees, including Chairman of I.A.R. 32 Rules Committee. He again served on the Idaho Judicial Council from 1995 to 2001 as the District Court member. He served as President of the District Judges Association from 2001 to 2003. In 2001, he was assigned to preside over the Snake River Basin Adjudication.

In January 2001, he was appointed the Administrative Judge for the Fifth Judicial District. Finally, in August, 2003 he was appointed to be the fifty-third Justice of the Idaho Supreme Court by Governor Dirk Kempthorne. He was reelected to that position in 2004.

IDAHO SUPREME COURT JUSTICE *JOEL HORTON*

Joel Horton was born in Nampa, Idaho in 1959. He graduated from Borah High School in Boise before attending the University of Washington. He received a B.A. in Political Science in 1982 and his J.D. from the University of Idaho College of Law in 1985.

Justice Horton practiced law in Lewiston for one year before marrying future Ada County Magistrate Carolyn Minder and moving to Twin Falls. He was a deputy prosecuting attorney in Twin Falls from 1986 - 1988. He worked as a criminal deputy with the Ada County Prosecutor for three years before becoming a Deputy Attorney General in 1991. He returned to the Ada County Prosecutor's Office in 1992, serving as a deputy criminal prosecutor until 1994.

In 1994, Justice Horton was appointed Ada County magistrate, serving as a family law judge until his appointment to the district court in 1996 by Governor Phil Batt. He served as a district judge until his appointment to the Idaho Supreme Court. In September of 2007, Governor C. L. "Butch" Otter appointed Justice Horton to succeed Justice Linda Copple Trout.

**IDAHO SUPREME
COURT JUSTICE
*JIM JONES***

Justice Jim Jones is an Idaho native, who grew up on his family's farm in Eden. He attended his first year of college at Idaho State University in Pocatello (1960-61), transferring to the University of Oregon in Eugene, where he received a Bachelor of Arts Degree in Political Science in 1964. He attended Northwestern University School of Law in Chicago, receiving a Juris Doctor Degree in 1967.

Justice Jones served as an artillery officer in the U.S. Army, including a 13-month tour in Vietnam. He was honorably discharged as a captain in August, 1969. In addition to a number of combat decorations, Justice Jones received an Army Commendation Medal for his civic action work with an orphanage run by the Cao Dai Church in Tay Ninh Province, Vietnam.

Justice Jones served as legislative assistant to former U.S. Senator Len B. Jordan for three years, commencing in 1970. He started a law practice in Jerome in 1973 and maintained it until he was elected as Idaho Attorney General in 1982. Justice Jones served two elected terms as Attorney General. Following the completion of his second term, he established a private law practice in Boise, which he maintained until being elected to the Idaho Supreme Court in 2004.

Justice Jones has served as a member of the board of Magic Valley Rehabilitation Services in Twin Falls (1975-1978), the advisory committee for Boise State Radio (1995-2000), the Idaho Vietnam Veterans Leadership Program (1983-1986), chairman of the Special Committee on Governmental Ethics, Lobbying and Political Campaign Financing (1987), chairman of the Attorney General's Advisory Committee on Gasoline Pricing (1999), General Counsel of the Better Business Bureau Inc., Serving Southwest Idaho and Eastern Oregon (1995-2004), and Army Reserve Ambassador for Idaho (2002-2003). He received the Torch of Liberty Award from the Anti-Defamation League of B'nai B'rith in 1987 and the Idaho Water Statesman of 1990 Award from the Idaho Water Users' Association. During his tenure as Idaho Attorney General, he argued three cases before the United States Supreme Court.

Justice Jones is married to Boise author, Kelly Jones. They have three children, Katherine Montgomery, Jon Edes, and Kristi MacDonald, as well as seven grandchildren.

IDAHO SUPREME COURT JUSTICE *WARREN JONES*

Justice Warren E. Jones is an Idaho native who was born in Montpelier, Idaho in 1943. He attended grade school in Ogden, Utah, spending summers with his grandparents on a farm in Burley, Idaho. He attended high school at Butte County High School in Arco, Idaho, graduating as valedictorian in 1961. He then attended the College of Idaho in Caldwell, Idaho, where he received his B.A. degree, *Magnum Cum Laude*, in political science in 1965. He then attended the University of Chicago Law School where he received his J.D. degree in 1968. After his second year of law school, he received a Ford Foundation Fellowship for advanced study in criminal law and procedure at Northwestern

University School of Law in Chicago. Following graduation from the University of Chicago in 1968, he returned to Idaho to work as a law clerk in 1968-1970 for the Honorable Joseph J. McFadden, Chief Justice of the Idaho Supreme Court. Justice Jones joined the law firm of Eberle, Berlin, Kading, Turnbow, McKlveen & Jones in 1970 where he later became the firm's senior litigator, specializing in litigation of all types, including negligence, products liability, professional malpractice and commercial litigation. For 37 years with the Eberle Berlin firm, Justice Jones tried over 122 jury cases to a verdict in 38 of the State's 44 counties.

In July, 2007, he was appointed to be the 55th Justice of the Idaho Supreme Court by Governor C.L. "Butch" Otter.

COUNTY GOVERNMENT

The county seals project was a project of the Idaho Centennial Commission. Each county was invited to submit its own design for a seal, and they were placed on the light posts in downtown Boise.

COUNTIES

The primary unit of local government in Idaho is the county. Counties are political subdivisions of the state and serve as an administrative arm of state government in providing services required by state law, such as law enforcement, welfare, and road maintenance. In addition, counties have, in recent years, tended to take on functions of a quasi-municipal character providing urban services such as planning and zoning, water supply and sewage disposal — functions that have traditionally been provided by incorporated cities.

The organization of county government is uniform throughout the state's forty-four counties; however, this uniformity may change due to a 1994 constitutional amendment that allows for optional forms of county government. The legislature has developed enabling legislation that provides for the optional forms that are available to Idaho's counties. Citizens in the counties have the opportunity to decide whether they want to continue with the current form of government or change to another form.

For further information on Idaho counties, contact the Idaho Association of Counties, 700 W. Washington, Box 1623 Boise, ID 83701; Phone: (208)345-9126; FAX: (208)345-0379; Website: www.idcounties.org

CITIES

Cities are voluntarily organized and may be incorporated under the general laws of the state by the people living within their boundaries. Cities are not primarily an administrative arm of state government but are local units which, for the most part, perform functions that are exclusively local.

Since 1967, all incorporated places in the state are designated simply as "cities" with no further classification. The constitution authorizes the legislature to enact general laws that apply to all cities in the state. There are 200 incorporated cities in Idaho ranging in population from 185,787 in Boise to 10 at Warm River in Fremont County.

Three Idaho cities, Boise, Lewiston, and Bellevue were granted charters from the territorial legislature rather than incorporate under the general laws of the state which govern all other cities. Boise, in 1961, and Lewiston, in 1969, abandoned their charters and joined Idaho's other cities under the general law governing municipal corporations. Bellevue, located in Blaine County, remains the only city in the state with a territorial charter. The town does not operate under the State Municipal Code, and the state legislature must approve any changes to the charter including annexations.

Most Idaho cities operate under a mayor-council form of government, but all cities have the option to adopt a council-manager plan (where a professionally trained city manager administers the day-to-day needs) if they so desire. Only three cities, Lewiston, Twin Falls and McCall, utilize the council-manager form. On June 26, 1985, residents of the city of Pocatello voted to change to a mayor-council form after nearly thirty-five years under a council-manager system.

An extensive list of city officials may be obtained from the Association of Idaho Cities, 3100 S. Vista Ave, Ste 310, Boise ID 83705; Phone: (208) 344-8594; Fax: (208) 344-8677; Website: <http://www.idahocities.org/>

TAXING DISTRICTS

Other local units of government in Idaho include school districts, numerous road districts, cemetery districts, fire protection districts, irrigation districts, junior college districts and other single-purpose taxing units. All of these units have limited taxing powers but are required to certify their requirements to the county commissioners who must include these needs in the collections made by county tax collectors.

COUNTY OFFICIALS

- The County Clerk, Assessor, Prosecuting Attorney, Treasurer, Coroner and Sheriff are elected for four year terms.
- County Commissioners are elected for terms of two and four years with their terms being staggered.
- *Denotes chairman of the county commission.

BOISE COUNTY

Established February 4, 1864 with its county seat at Idaho City. Named for the Boise River, which was named by French-Canadian explorers and trappers for the great variety of trees growing along its banks. The Boise Basin, in which Idaho City lies, was one of the richest gold mining districts in the nation after the discovery of gold in 1862. At its peak in the 1860s and 1870s Idaho City was for a time the largest city in the Northwest, it was this great influx of people that led to the establishment of the Idaho Territory.

CANYON COUNTY

Established on March 7, 1891 with its county seat at Caldwell. Current sources attribute the name to the canyon of the Boise River near Caldwell. However, both John Rees and Vardis Fisher believed it named for the Snake River Canyon, which forms a natural boundary for the county. The Hudson's Bay Company established Fort Boise in 1834 near what is now Parma, but abandoned it in 1855. Emigrants traveled through Canyon County on the Oregon Trail.

CARIBOU COUNTY

Established February 11, 1919 with its county seat at Soda Springs, the last county in Idaho to be created. Named for the Caribou Mountains, which in turn are named for Cariboo Fairchild, who had taken part in the gold rush in the Cariboo region of British Columbia in 1860. He discovered gold in this region two years later. This area was on the routes of the earliest explorers, fur trappers and Oregon Trail emigrants. Thousands of emigrants passed through the present site of Soda Springs, so named for the many effervescent natural springs in the area.

CASSIA COUNTY

Established February 20, 1879 with its county seat at Albion. The county boundaries were later reduced in 1913 by the creation of Twin Falls and Power counties. The county seat was changed to Burley on November 5, 1918. Named for Cassia Creek, which was named for one of two words: cajeaux, peasant French for raft; or James John Cazier, member of the LDS Church and of the Mormon Battalion, later a colorful captain of an emigrant train, whose name was corrupted to Cassia. Locally it is also believed that the name is derived from the name of a plant.

MINIDOKA COUNTY

Established January 28, 1913 with its county seat at Rupert. Named directly for the first settlement, Minidoka, a railroad siding. The name is Indian, but the exact meaning is in dispute. Some believe that Minidoka means “well, spring” but there was not a source of water such as a well or spring until 1946. Others say the word is Shoshoni and means “broad expanse,” because the broadest portion of the Snake River Plain lies here.

ELECTIONS

School Visit to the Secretary of State

Photo courtesy: Jim Mairs

Voter Qualifications and Registration

The requirements for voting in Idaho are as follows: An elector must be (1) a citizen of the United States, (2) at least 18 years old, (3) must have resided in this state and in the county at least thirty (30) days next preceding the election at which he desires to vote and who is registered as required by law.

Where and When to Register

1. With your County Clerk or precinct registrar except during a 24 day period immediately preceding an election.
2. Mail registration forms are available in various public offices and must be postmarked by the 25th day before an election.
3. Election day registration with proof of residency/accompanied with a photo I.D.
4. A person must reregister if one of the following occurs:
 - a. A registration is canceled by the County Clerk as provided by law.
 - b. A residence/name change.

Permanency of Registration

Registration is on a semi-permanent basis. If a voter fails to vote at least once at a primary or general election during the four years following registration, that person's name is removed from the list, and re-registration is necessary.

Election Campaign Fund

The Idaho Election Campaign Fund, Title 34, Chapter 25, Idaho Code, permits every individual whose income tax liability for any taxable year is \$1.00 or more to designate that \$1.00 be paid into the election campaign fund, either earmarked to a party of his choice; or to be placed in the general election fund. The fund is divided as follows: (1) Each party receives the amount of the fund which has been designated by the contributing individuals.

(2) 90% of the remainder is distributed to the central committees of the state's political parties in proportion to the number of votes cast for each party's candidate for governor in the last gubernatorial election; however, no party may receive more than 50% of this amount.

(3) Any portion of this 90% which is not distributed, along with the 10% which has been reserved, is distributed in equal portions to all major, minor and new political parties which have qualified candidates for elective state office for the ballot in the next general election. This distribution is made on the Tuesday following the first Monday of August in each year.

The Idaho Election Campaign Fund was distributed as follows in 2008:

Party	Designated	Undesignated	Total
Democrat	\$30,688.00	\$4,852.00	\$35,540.00
Republican	25,438.00	5,453.00	30,891.00
Libertarian	2,344.00	510.00	2,854.00
Constitution	1,623.00	521.00	2,144.00
United Party (prev. Natural Law)	953.00	510.00	2,854.00
TOTAL			\$71,429.00

Since its creation in 1975 the Idaho Election Campaign Fund has distributed over \$1,000,000 as follows:

Party	Total
Democrat Party	\$717,295.54
Libertarian Party	51,079.58
Republican Party	715,034.03
Other Parties	55,567.10
TOTAL	\$1,538,976.25

Sunshine Law

The Sunshine Law for Political Funds and Lobbyist Activity Disclosure, (Title 67, Chapter 66, *Idaho Code*), was enacted into law by an initiative in the 1974 general election by 78% voter approval. The law was effective upon the Governor's proclamation on November 27, 1974.

Political candidates and committees are required to file periodic reports of their activities which disclose contributions and expenditures. The following tables are from records on file in the Secretary of State's office.

Education in Idaho

Idaho's State Department of Education was organized in 1891, the first year of Idaho's statehood. The first State Superintendent of Public Instruction, Joseph Harroun, was assisted by one staff member and a part-time secretary as he met his statutory responsibilities for summarizing reports from county school superintendents, awarding certificates to qualified teachers, preparing lists of acceptable textbooks, preparing courses of study for the schools, and presiding over meetings of the State Board of Education.

In 1911, Governor James H. Hawley proposed a reorganization of the state's educational system into a form similar to today's structure - that is, a single State Board of Education responsible for the general supervision of Idaho's educational institutions and public school system. The board was comprised originally of six members, five appointed by the governor to a 5-year term, and the elected Superintendent of Public Instruction (membership was later increased to seven appointed members). The enabling legislation, passed in 1913, also established a Commissioner of Education to serve as an advisor to the board and to work with both public school administrators and the state's higher education institutions.

In time, however, it became evident that there was duplication between the Commissioner of Education, appointed by the State Board of Education, and the elected Superintendent of Public Instruction, who served as a member of the board. Thus, in 1933, the Idaho Legislature eliminated the Commissioner of Education and named the State Superintendent of Public Instruction as the executive secretary of the State Board of Education, with the superintendent's staff located in the State Department of Education.

The 1947 Idaho Legislature set the framework for today's system of educational governance in Idaho. Among the 30 educational measures enacted during the session was the official establishment of a State Department of Education with responsibility in a variety of areas: the school lunch program, school transportation, teacher certification, curriculum development, and other public school concerns. The department's eight staff members handled the work.

Today the Idaho State Department of Education is organized into five divisions. Each division is led by a Deputy Superintendent who oversees the employees and programs within that division. The divisions within the State Department of Education work closely together to ensure each program is meeting the needs of all Idaho students. Here is a brief description of the divisions within the State Department of Education:

Innovation and School Choice: The Division of Innovation and School Choice provides technical assistance to improve the innovation and choices available within public education. The Division includes the Content Areas and Instructional Services, School Choice, and Gifted and Talented Coordinator.

School Support Services: The Division of School Support Services assists Idaho schools and districts with the daily services they provide to the customers of education. The Division includes the office of Teacher Certification, Coordinated School Health, HIV/AIDS, Safe and Drug Free Schools Program, 21st Century Community Learning Centers, Driver Education, Indian Education.

Finance, Child Nutrition and Student Transportation: The Division of Finance, Child Nutrition and Student Transportation distributes the public school state appropriation and assists school districts and charter schools with finance, child nutrition and student transportation services.

Student Achievement and School Accountability: The Division of Student Achievement and School Accountability provides technical assistance to schools in the areas of student achievement, special education and Title I programs. The Division includes No Child Left Behind team and Special Education.

Communications and Government Affairs: The Division of Communications and Government Affairs manages the day-to-day operations of the State Department of Education and oversees legislation and communications. The Division includes the Office of the Superintendent of Public Instruction, Human Resources, Accounting and Information Technology.

Idaho's Endowment Trusts

When Idaho became a state in 1890, the Admission's Act granted the new state about 3 million acres of federal lands for public support (sections 16 and 36 of every township) and another 650 thousand acres for support of eight other endowment beneficiaries. The State Constitution placed the management of these lands into the hands of the five-member State Board of Land Commissioners composed of the Governor, Secretary of State, Attorney General, State Controller and Superintendent of Public Instruction. The Constitution gave the State Treasurer the responsibility for management of the financial assets generated by the endowment lands.

In 1905, the Legislature created the Department of Lands to support the Land Board. Over the years the board sold and exchanged properties so that about 2.1 million acres of public school endowment lands remain and about 350,000 acres of the other eight beneficiaries land remain. In addition to land sales and mineral revenue, the Land Board chose to deposit timber sale revenue into the permanent endowment. It chose to place lease revenues into the income funds for annual distribution along with the earnings from the permanent funds. In 1969 the Legislature voiced its desire to improve the performance of the State Treasurer by creating an Endowment Fund Investment Board (EFIB) with powers to invest the financial trusts.

Boise State University is one of the top public universities in the Northwest, with a metropolitan character, traditional undergraduate teaching emphasis, and advanced research and graduate studies. Boise State is situated in the middle of Idaho's commercial, cultural and civic capital and employs about 2,500 faculty staff. Its enrollment of nearly 20,000 students is the largest in the Gem State.

Idaho's metropolitan university offers more than 190 fields of interest. Undergraduate, graduate and technical programs are available in seven colleges: Arts and Sciences, Business and Economics, Education, Engineering, Graduate Studies, Health Sciences, and Social Sciences and Public Affairs. Boise State has the only raptor biology graduate program in the United States and has the largest state-supported undergraduate nursing program in Idaho. The College of Engineering is regularly listed among the top public engineering schools of its kind in the nation.

The campus is home to 11 Idaho Professor of the Year honorees since 1990 as selected by the Carnegie Foundation. Many faculty members are nationally and internationally recognized scholars and authors. Others consult with business and industry, educational institutions, government agencies and professional groups worldwide, or spearhead groundbreaking research. Former NASA astronaut and educator Barbara Morgan joined Boise State in 2008 as the Distinguished Educator in Residence.

Boise State scientists are engaged in world-class studies both on campus and around the world. Areas of expertise include materials science, subsurface sensors, wind energy and health-related research on cancer and Alzheimer's disease. Undergraduate and graduate

students work with faculty on cutting-edge research initiatives. This hands-on experience both enhances and expands students' education and prepares them for future careers in medicine, engineering and the sciences.

Student enrollment has set statewide records in 12 of the last 13 years. Boise State students come from every state and 65 different countries and meet the highest public admission standards in the state of Idaho. Students can also study abroad or participate in one of the largest internship programs in the Northwest. Campus life offers adventure and activity. More than 200 student organizations, new residence halls along the Boise River Greenbelt and a state-of-the-art Student Recreation Center provide opportunities for both individual development and fun.

New facilities include the Interactive Learning Center, the Norco Building for University Health Services and the Department of Nursing, and an expansion of the Student Union Building. The main entertainment venues include the Special Events Center, Bronco Stadium, Taco Bell Arena and the Morrison Center for the Performing Arts. More than one million visitors come to campus annually for Nobel and Pulitzer Prize-winning speakers, Bronco football, Martin Luther King Jr. Human Rights Celebration and other events.

Founded in Pocatello in 1901 as the Academy of Idaho, what is now Idaho State University was renamed Idaho Technical Institute in 1915 and became the Southern Branch of the University of Idaho in 1927. In 1947, it was reorganized as Idaho State College and was awarded university status by the Idaho Legislature in 1963. Credits awarded by ISU are accepted at all recognized colleges and universities in the United States.

Today, ISU enrolls more than 14,000 students each semester in more than 200 top-flight certificate and degree programs in the colleges of Arts and Sciences, Business, Education, Engineering, Health Professions, Pharmacy, the College of Technology, and Graduate School. As the state's designated leader for education in the health professions, ISU trains health-care professionals in fields ranging from Dental Hygiene and Dietetics to Nursing, Physical Therapy and Radiology, as well as offering a residency for physicians specializing in family practice. The Pocatello Family Medicine clinic operates in conjunction with Portneuf Medical Center, and offers Resident Physicians and other health care students opportunities for clinical experience.

ISU enrolls more than 2,000 students each semester in 46 Master's and 13 Doctoral programs, including Doctor of Pharmacy, Doctor of Physical Therapy, Doctor of Audiology, Doctor of Philosophy, Doctor of Education and Doctor of Arts degrees. ISU pioneered the Doctor of Arts degree, which emphasizes excellence in college teaching in interdisciplinary programs in English, Biology, Mathematics and Political Science. In addition, a Doctoral Degree in Nuclear Science and Engineering and an Interdisciplinary Master's Degree in hazardous waste management are offered in conjunction with the University of Idaho and the Idaho National Engineering Laboratory.

Idahoans who cannot come to the Pocatello campus can receive ISU educational services through a variety of innovative means. The Idaho State University/University of Idaho Center for Higher Education at Idaho Falls offers many complete associate, baccalaureate and graduate degree programs. Both daytime and night courses are offered. ISU also offers academic programs at outreach centers at Twin Falls, Boise and Coeur d'Alene and delivers

regular university courses, continuing education classes and special programs for high school students to outlying communities via sophisticated two-way audio-video technology.

In addition to its outstanding academic and applied technology classroom and laboratory facilities, ISU is also home to the Holt Arena, the first indoor stadium on a U.S. college campus; the Oboler Library, which houses over three-quarters of a million books and other items; and the Idaho Museum of Natural History. The ISU Research and Business Park is home to the ISU Center for Business Research; the Idaho Veterans Home, operated in conjunction with the State of Idaho; the Southeastern District Health Department; and the Idaho Accelerator Center, operated by ISU in cooperation with the Department of Energy and the INL housing particle accelerators for nuclear research and applications in medicine, agriculture and industry. The Research and Business Park also helped provide for a major expansion of the AMI plant and helped attract Ballard Medical, Positron and Tetridyn to Pocatello, projects that have major economic consequences for Pocatello and the state.

The L.E. and Thelma Stephens Performing Arts Center, a \$34 million structure built primarily with private funding, opened in October. The unique, state-of-the-art facility has three theatrical venues for presenting a variety of musical, dramatic and dance performances, and also includes instructional space and the offices of ISU's department of theatre and dance.

The University of Idaho was created in 1889 by a statute of the Territorial Legislature, and the act became part the state constitution when Idaho became a state in 1890. Now, 120 years later, the University has granted more than 100,000 degrees and established a legacy of leading.

Located in the rolling Palouse hills of northern Idaho, the University of Idaho is one of the leading public universities in the Northwest. Idaho attracts nearly 12,000 students and has become known for its academic excellence, exceptional student living and learning environment, outstanding creative and research opportunities, and proven track record of high-achieving graduates.

There are programs of instruction in more than 140 subject areas, and students benefit from many interdisciplinary programs that incorporate faculty expertise and ideas from across the university. The University structure includes the colleges of Agricultural and Life Science; Business and Economics; Education; Engineering; Letters, Arts and Social Sciences; Natural Resources; Science; Law; and Graduate Studies. University faculty also support the Washington-Idaho Regional

Program in Veterinary Medicine and the Washington, Wyoming, Alaska, Montana and Idaho (WWAMI) Regional Medical Education Program.

The University is a doctoral-research extensive institution, with the principle responsibility for performing research and granting Ph.D. degrees in Idaho. University researchers are awarded nearly \$100 million in research funding annually. Both undergraduate and graduate students have extensive opportunities to engage in research projects.

The University of Idaho is a land-grant university – what Abraham Lincoln called “people’s universities” – and reaches out to the state with programs to make communities better, families stronger and the state’s economy more productive.

The University operates Extension offices in 42 and Idaho’s 44 counties, and maintains education centers in Boise, Twin Falls, Coeur d’Alene and Idaho Falls. According to a 2004 study, the University of Idaho creates \$633.4 million in statewide economic impact and is credited for providing more than 13,000 jobs in the state.

The University is a member of the National Association of State Universities and Land-Grant Colleges and is accredited by the Northwest Association of Schools and Colleges. Additional approval or accreditation for specific programs has been granted by a wide range of national organizations.

Through insight and innovation, and a legacy of leadership, the University of Idaho enriches the lives of people throughout Idaho, the region and the world.

The College of Southern Idaho is a two-year community college that was established in Twin Falls in 1965. Twenty buildings on the 215-acre CSI campus accommodate more than 120 academic and technical program options for first and second-year college students as well as for short-term training for those who are looking at a new career or career enhancement. The new 72,000 square foot Health Science building located on 120 acres of land just north of the main campus is scheduled to be in operation in spring of 2010. The \$21-million building will allow CSI to double its output of nursing graduates and will provide classroom and lab space for at least 14 other health science and human services programs.

Total enrollment for CSI's spring 2009 semester was more than 7,700 students. More than 1,000 students enroll in summer semester classes. About 1,500 high school students from nearly 40 Idaho high schools are enrolled in dual credit classes, earning college and high school credits at the same time. CSI offers 70 academic and 45 technical programs. Approximately 250 students live in the dorms on campus with another 100 in campus-owned housing nearby. A privately-owned complex adjacent to campus accommodates another 500 students in easy walking distance to classes.

Tuition and fees are among the lowest in Idaho. An increase to \$100/credit is expected to go into effect in June, 09.

The student-elected Senate and Executive Cabinet play an active role in all decisions affecting student life and activities each year. A Program Board consisting of students, faculty, and staff provides many entertainment and enrichment events throughout the year, including music, magic, and comedy.

The CSI Honors and Phi Theta Kappa programs are attractive to all students who want to enhance their college resumes with high-achievement offerings leadership opportunities. Idaho's New Century Scholar, an academic honor awarded to one community college student from each state, has been a CSI student for each of the last three years. The University of Idaho,

BBC began in 1945 as a ministry of the First Church of Christ in Boise as a training school for ministers in the Pacific Northwest. In 1974, the college became an independent institution and moved to the current campus in west Boise. In 1989 BBC received accreditation through the ABHE (Association for Biblical Higher Education, 5575 S. Semoran Blvd. Ste. 26, Orlando FL 32822-1781). Since 1990 BBC has expanded programs, built new campus facilities, and

dramatically increased enrollment. After more than 60 years, the purpose of BBC remains to prepare leadership for the Lord's church in America and throughout the world. BBC is nondenominational, but supported mostly by independent Christian churches and Churches of Christ. Most students are from the Pacific Northwest and Intermountain West.

Brigham Young University–Idaho

President: Dr. Kim B. Clark

Rexburg ID 83460 (208) 496-1111

www.byui.edu

Degrees Granted: Associate of Arts, Associate of Science, Associate of Applied Science, Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Science

Brigham Young University–Idaho is a private, four-year university affiliated with The Church of Jesus Christ of Latter-day Saints. Guided by that affiliation, BYU–Idaho seeks to develop students who are faithful disciples and capable leaders. This is done by creating a wholesome, righteous learning community in which students can strengthen their testimony of the restored gospel of Jesus Christ and receive a quality education that prepares them for leadership in the home, the Church, and the workplace.

BYU–Idaho is the oldest continuously-operating institution of higher education in Idaho. The university was founded in 1888 as Bannock Stake Academy with 59 students. It became Fremont Stake Academy in 1898. In 1902 it was named Ricks Academy in honor of Thomas E. Ricks, a Church leader who founded Rexburg and headed the academy's first Board of Education. In 1918 it was renamed Ricks Normal College, and in 1923 it became known as Ricks College, which grew to become the largest privately-owned junior college in the United States.

In June 2000 leaders of The Church of Jesus Christ of Latter-day Saints announced Ricks College would transition from a two-year college to a four-year university. Academic programs were evaluated and restructured, and the school officially became Brigham Young University–Idaho in August 2001. The university is accredited by the Northwest Commission on Colleges and Universities.

Under the direction of President Kim B. Clark, BYU–Idaho is continually working to raise the quality of each student's experience, while searching for cost effective ways to make a BYU–Idaho education available to many more young people.

A comprehensive liberal arts, professional, and scientific curriculum is offered. As a two-tiered institution, BYU–Idaho offers students a choice of associate or bachelor's degrees. Associate degrees offer students specialization in a major field of study along with a carefully selected curriculum of general education. Specialized bachelor's degrees focus on a specific discipline, while integrated bachelor's degrees allow students to incorporate other related fields of study into their chosen major.

BYU–Idaho's academic offerings are spread across six colleges: Agriculture and Life Sciences, Business and Communication, Education and Human Development, Language and Letters, Performing and Visual Arts, and Physical Sciences and Engineering. Faculty members in these various departments are focused primarily on the teaching and development of students. Instructors also engage in a variety of scholarly and research activities to support their teaching.

Students complement their academic experience with leadership and mentoring opportunities available through the university's Activities Program. This student-run program offers an array of year-round activities in six core areas: outdoor, service, talent, fitness, sports, and social. Thousands of students are involved in the Activities Program each semester.

BYU-Idaho

Photo Courtesy: BYU-Idaho

BYU-Idaho operates year round on a three-track, three-semester system: winter, spring, and fall. Facilities are better utilized and many more students are served by their admission to a track composed of two of the three semesters. In 2008 BYU-Idaho taught about 21,820 students in its associate and bachelor's degree programs.

Internships are another vital element of the BYU-Idaho education because of the unparalleled leadership and experiential learning opportunities they provide. The university-wide internship program is one of the largest providers of interns in the nation, sending out more than 3,200 students annually. Internships are integrated into degree programs, with interns receiving academic credit for their work. Because of the three-track system, interns from BYU-Idaho find semester-long placements year round.

BYU-Idaho students come from all 50 states and more than 50 countries. Married students comprise approximately 30 percent of the student body. About 40 percent of the students have served as missionaries for The Church of Jesus Christ of Latter-day Saints, bringing a unique level of maturity, cultural diversity, and leadership ability to the campus.

All BYU-Idaho students agree to live by an Honor Code that reflects the beliefs and teachings of the Church. The Honor Code emphasizes being honest, living a chaste life, abstaining from alcohol and tobacco, using clean language, and following other values encompassed in the doctrines of the Church. The code includes additional guidelines on dress and grooming.

The BYU-Idaho campus includes about 40 major buildings and residence halls on over 400 acres. Since the transition from Ricks College, new buildings have been constructed and others have been renovated or expanded. Construction is underway on a 15,000-seat auditorium, as well as an expansion and remodel of the Hyrum Manwaring Student Center. Both are scheduled for completion in 2010.

The College of Idaho, a nationally ranked residential private liberal arts college, offers a challenging, intimate, academic setting in Caldwell. The College offers 27 majors and several cooperative and pre-professional programs in engineering, law, and health-related professions, and a master's degree in teaching.

The C of I prides itself on small classes, close student-faculty interaction, and an engaged student body that allows it to offer students an environment, curriculum, and culture to discover new ways of thinking.

Since its founding in 1891, graduates from The College of Idaho have carried the spirit of these lessons forward, enriching their lives and contributing to their communities by exercising their talents and acting upon their values.

The C of I boasts students and faculty who have reached the highest levels of academic achievement. Current students, faculty, and recent graduates include a Goldwater Scholar, an Idaho Academy of Science Distinguished Scientist, a record number of scholar-athletes for both the College and its athletic conference, two Carnegie Foundation Idaho Professors of the Year, a Marshall Scholar and a Rhodes Scholar finalist.

The College made national, regional and statewide news in October 2007 when it announced that it had received a \$50 million cash gift – the largest gift ever given to an Idaho college or university – and that it was returning to its original name of The College of Idaho. The College changed its name to Albertson College of Idaho in 1991 to honor Joe Albertson, one of the College's most famous alumni and a generous donor.

Consistently ranked by U.S. News & World Report as one of the top universities in the West, Northwest Nazarene University prides itself on the sense of community, Christian values and commitment to academic excellence that are the cornerstones of the university. Established in 1913, NNU is recognized in the Northwest and around the world as being a place of opportunity for academic and spiritual growth. Graduate and online programs at NNU have grown to meet the needs of today's population.

NNU serves approximately 1,700 undergraduate and graduate students and 10,000 continuing education students on its 85-acre campus in Nampa, which includes seven

residence halls and apartment complexes; baseball, softball, and soccer fields; tennis courts; and an Olympic-sized track. The university is constantly expanding to meet the needs of its students. Since 1995, NNU has constructed and purchased eight new buildings including a fine arts facility, a sports complex, a business center, a dormitory and apartment complexes. NNU's online master's programs in business, education, and religion have also opened doors for those wishing to pursue graduate degrees online.

NNU offers more than 60 areas of study and master's programs in six disciplines as well as study-abroad cooperative programs in ten countries. The university employs 105 full-time faculty members to maintain a low student-faculty ratio and an average class size of 19 students.

Along with its educational offerings, NNU offers seminars, concerts and lectures to the community, often free of charge. NNU's Brandt Center is a beautiful, 1500-seat auditorium that regularly hosts the Boise Philharmonic and other concerts and events.

NNU is known for the strength of the community. The sense of community is most often the first characteristic students' mention when describing NNU. Students, through the generations, share how they value the highly qualified faculty's interest in mentoring students scholastically, spiritually and professionally. In addition to sharing in times of worship and celebration together during community chapels each week, students are encouraged to be involved in campus activities and ministries, including more than 30 clubs and organizations that represent a wide array of interests and student leadership opportunities.

Today, Northwest Nazarene University is known for its community committed to preparing global Christians through academic excellence, creative engagement and social responsiveness. A special place known for: great minds, great hearts, great futures.

Degrees Granted through Idaho Campus: Master's Degrees in Business Administration; Bachelor's of Science Degrees in Education, Curriculum and Instruction; Business Management; Information Technology, and Criminal Justice

University of Phoenix has been educating working adults for 30 years and is the largest private accredited university in North America. The University focuses on small interactive classes, highly personalized teaching and comprehensive academic accountability systems with programs in Idaho offered through a blended delivery of both online and in-person instruction as well as purely on-line methods which provide students exceptional flexibility in course transmission. The curriculum for each University of Phoenix program is designed with significant input from local industry, business, and education communities. Our innovative educational model is offered at campuses and learning centers across the United States, Puerto Rico, and Canada. Today, more than 310,000 busy professionals are achieving their goals by earning their college degrees at University of Phoenix or other Apollo Group, Inc., institutions. The University has been accredited by the Higher Learning Commission since 1978 and is a member of the North Central Association of Colleges and Schools. As of 2006, more than 1,000 Idaho residents attended University of Phoenix at the Idaho Campus as well as through University of Phoenix on-line, and Axia College. Students may enroll at the local campus for all on-campus and online programs, including Axia College, a two-year academic college of the University of Phoenix through which students can earn an associate degree.

The Idaho Campus has articulation agreements which apply credit for courses from many local institutions and professional organizations.

GLOSSARY OF TERMS

Fiscal Year: The accounting year used by the state, July 1 of a given year through June 30 of the following year.

Appropriation: 1. Annual fixed budgets that state officers, departments and institutions may not exceed. 2. That portion of the total state budget allocated by the Legislature to a state agency or program for one fiscal year.

Classification of funds:

1. General: The state's primary source of revenue. 46.8% of the General Fund comes from the personal income tax, 40.4% from the sales tax, and 7.8% from the corporate income tax. The remaining 5.1% comes from taxes on alcohol and tobacco and a variety of other taxes and certain licenses and fees not specifically appropriated to any other fund. General tax revenues are used to finance the operations of state government that do not have their own dedicated source of revenue, such as education and prisons.

2. Dedicated/Other: Represents revenue received from a specified source or sources, and disbursed for a specific function or government as required by law. For example, the Department of Fish & Game receives no General Fund money. Instead, the revenue generated by the sale of fishing and hunting licenses and tags is dedicated exclusively to paying for the department's fish and wildlife management and activities.

3. Federal: Identifies moneys from the federal government for specified state administered services.

Annual Percent Change: The rate at which the 1999 appropriation would have to change on an annual basis to reach the 2009 appropriation.

Total Percent Change: The quantity of the 2009 appropriation minus the 1999 appropriation divided by the 1999 appropriation.

State Parks

State Parks

Bear Lake

Bear Lake State Park is located in a high mountain valley in the extreme southeast corner of Idaho. At 5,900 feet elevation, the park offers a wide variety of both summer and winter recreation opportunities. The Bear Lake State Park campground is located on the east side of the lake and offers 47 individual, and three (3) group campsites. The North Beach unit of the park offers over two miles of sandy beach for day use. Bear Lake itself is 20 miles long and 8 miles wide with half of the lake in Idaho and half in Utah. Anglers can try for a native cutthroat or lake trout in the summer. In the winter, they can come back with buckets and nets when the Bonneville cisco run. The fish is found nowhere else on Earth.

Location: Hwy. 89 S. to St. Charles and follow signs. 2 hrs. S. of Pocatello, 3 hrs. N. of Salt Lake City.

Mailing Address: PO Box 297, Paris ID 83261

Phone: 208-847-1045; Toll Free: 866-634-3246; Fax: 208-847-1056

Earl M. Hardy Box Canyon Springs Natural Preserve

Box Canyon is the site of the 11th largest spring in North America, which pours 180,000 gallons of water per minute into the Snake River. The canyon is also the home to a rare fish species found only in Idaho, the Shoshone sculpin, as well as three endangered spring snails. The canyon walls are popular for nesting raptors.

Heyburn

Heyburn State Park is the oldest park in the Pacific Northwest. Created in 1908, it is comprised of approximately 5,500 acres of land and 2,300 acres of water. The park includes three lakes; Chatcolet, Benewah, and Hidden Lakes, with the shadowy St. Joe River meandering along the eastern boundary of the park. Natural and cultural history is plentiful at Heyburn. Before it was a park, the general area was a gathering place for the Coeur d'Alene Indian tribe. In the 1930's, the park was a Civilian Conservation Corps camp and those hardworking crews built many of the park's buildings. Heyburn is a natural park with a variety of different habitats. Large, tall Ponderosa pines tower over grassy hillsides covered in wildflowers. On shadier slopes, cedar trees mix with hemlocks and huge white pines. On the edges of the lakes, the wetland/marsh areas are home to many types of wildflowers and plants.

Malad Gorge

The Malad River crashes down stairstep falls and into the Devils Washbowl, then cuts through a beautiful 250-foot gorge on its way to the Snake River, 2-1/2 miles downstream. The cracks and folds of rock along the canyon cliffs record the movements of earth, lava and water. The historic Kelton Trail runs through the park, providing Western history buffs with excellent wagon ruts and traces of the Kelton Stage Stop.

Massacre Rocks

Oregon Trail emigrants referred to the Massacre Rocks area as "Gate of Death" and "Devil's Gate", but modern day travelers use terms like beautiful, serene, and restful to describe the park. The park is rich in Oregon Trail, geological, and natural histories. Rich in history, pioneers used this area, specifically what is now referred to as 'Register Rock' as a rest stop for years. Today we invite horse owners to water and rest their animals in the corral at Register Rock. Many emigrant names are inscribed on the large rock, which is now protected by a weather shelter. A scenic picnic area surrounds the rock, creating a desert oasis for the modern traveler. The site also includes a horse rest area for highway travelers.

Priest Lake

Priest Lake State Park lies just 30 miles from the Canadian Border, nestled deep below the crest of the Selkirk Mountains. Surrounded by the natural beauty of Northern Idaho and mile-high mountains, Priest Lake State Park sits along the eastern shores of Priest Lake, a 19-mile long, over 300 foot deep lake. Visitors to the park will enjoy the dense forests of cedar, fir and tamarack and will be able to observe the park's year round inhabitants such as the whitetail deer, black bear, moose and bald eagles. Noted for its extremely clear water, fed by streams cascading from the high Selkirk peaks, the main body of Priest Lake extends north south for 19 miles. A two-mile thoroughfare connects the main lake to the remote Upper Priest Lake that is accessible only by foot, mountain bike, or boat.

Snowmobiling

Idaho has over 7,200 miles of snowmobile trails in 29 grooming programs located throughout the state. Millions of acres of open riding exist on Forest Service, Bureau of Land Management, State and private land. The Forest Service and BLM can provide information that identifies open and closed areas, closure dates and other details that may help you plan an enjoyable ride. Many county snowmobile programs also provide trail maps of the areas that are groomed. For more on where to ride in Idaho, contact the Department of Parks and Recreation at (208) 334-4199.

Nordic Skiing

Idaho's unique terrain of mountain valleys, broad sweeps of gently rolling hills and a rugged backcountry that includes the largest wilderness in the continental U.S., offers the Nordic ski enthusiast a very special experience.

Nordic ski instruction and rentals are available at most ski resorts throughout the state. There are also several tour operators who offer Nordic ski packages, including backcountry touring, hut to hut skiing, or groomed trails for easy touring. Numerous Forest Service and privately groomed trails from 5 to 60 kilometers are found throughout the state.

Park N' Ski Program

The Idaho Department of Parks and Recreation operates a unique program called Park N'Ski through four separate trail systems and four state park ski areas. Many trails are groomed on a regular basis and provide amenities such as restrooms, warming shelters and backcountry huts/yrts. A season pass costs \$25 and a three-day temporary permit costs \$7.50. Permits may be purchased at a variety of places throughout the state, including sports shops, state parks offices, U.S. Forest Service ranger stations and chambers of commerce. In addition to the Park N'Ski areas, Farragut State Park, Priest Lake State Park, Round Lake State Park and Winchester State Park have cross-country ski trails available for use. For more information, contact the Idaho Department of Parks and Recreation, PO Box 83720, Boise ID 83720-0065, (208) 514-2419

Bureau of Land Management

The BLM manages 11.9 million acres of public land in Idaho, most of which is concentrated in the southern part of the State. Every Idaho county contains some BLM-managed land, which accounts for 36 percent of the total Federal acreage within Idaho's borders. Idaho's public lands feature alpine forests, rolling rangeland, and spectacular canyonlands with premier desert white-water streams—the Owyhee, Bruneau, Jarbidge, and Lower Salmon.

Idaho's public lands are rich in environmental, historical, recreational, and economic values. These lands, with historical features that include some of the best remaining original ruts of the Oregon Trail, will attract millions of recreational visits. Many of these visits will be made by the outdoor sportsmen of Idaho, where about one of every three persons owns a fishing or hunting license. BLM-managed lands also support the traditional commodity activities of grazing, mining, and timber production, which are vital to Idaho's rural economies.

Major Land Areas, Sites and Rivers Designated by the U.S. Government

National Parks and Monuments

The first National Park (Yellowstone) was designated in 1872. The National Park Service was created in 1916 to advance a new concept of land use to conserve the scenery, natural, historic, and wildlife in perpetuity for the benefit and enjoyment of the people. The U.S. Congress establishes these Parks and Sites.

National Conservation Areas

National Conservation Areas (NCAs) are designated by Congress to conserve, protect, enhance, and manage public land areas for the benefit and enjoyment of present and future generations. NCAs feature exceptional natural, recreational, cultural, wildlife, aquatic, archeological, paleontological, historical, educational or scientific resources.

National Recreation Areas

Congress in 1962 passed the National Recreation Area Act to help preserve and expand outdoor recreation opportunities throughout the nation.

Wilderness Areas

In 1964, Congress passed the Wilderness Act to set aside certain lands from development and to preserve their natural character. The Wilderness Act defines wilderness as an area of undeveloped Federal land, usually 5,000 acres or more, in a substantially natural condition. It is without permanent improvements or human habitation, and has outstanding opportunities for solitude or a primitive and unconfined type of recreation. Such an area may contain ecological, geological, or other features or scientific, educational, scenic, or historical values.

Wild and Scenic Rivers

In 1968, Congress authorized the Wild and Scenic Rivers System Act which permits State Legislatures and the U.S. Congress to designate certain rivers as wild and scenic to preserve outstandingly remarkable scenic, recreational, geologic, fish and wildlife, historic, cultural, or other similar values in a natural and free-flowing condition for the benefit and enjoyment of present and future generations.

National Natural Areas & Landmarks

In 1972 Congress directed the Secretary of Interior to investigate and inventory areas which could be designated National Natural Landmarks and for possible inclusion into the National Parks System.

National Parks, Monuments and Reserves

City of Rocks National Reserve

Established: 1988. "We encamped at the city of the rocks, a noted place from the granite rocks rising abruptly out of the ground," wrote James Wilkins in 1849. "They are in a romantic valley clustered together, which gives them the appearance of a city." Wilkins was among the first wagon travelers to fix the name City of Rocks to what looked like "a dismantled, rock-built city of the Stone Age." California Trail pioneers were leaving civilization as they knew it in the East for new lives in the West. Some wrote their names in axle grease on rock faces, and their signatures can be seen today. No doubt thirsty on this northern edge of the Great Basin Desert, one emigrant saw the distant rocks in August like "water thrown up into the air from numerous artificial hydrants." Beginning in 1843, City of Rocks was a landmark for emigrants on the California Trail and Salt Lake Alternate Trail and later on freight routes and the Kelton, Utah to Boise Idaho stage route.

Craters of the Moon National Monument and Preserve

Established: 1924. A sea of lava flows with scattered islands of cinder cones and sagebrush describes this “weird and scenic landscape” known as Craters of the Moon. Craters of the Moon National Monument and Preserve contains three major lava fields covering almost half a million acres. These remarkably well preserved volcanic features resulted from geologic events that appear to have happened yesterday and will likely continue tomorrow. 18 miles W of Arco on Hwy 20

Hagerman Fossil Bed National Monument

Established: 1988. Hagerman Fossil Beds NM contains the largest concentration of Hagerman Horse fossils in North America. The Monument is internationally significant because it protects the world’s richest known fossil deposits from a time period called the late Pliocene epoch, 3.5 million years ago. These plants and animals represent the last glimpse of time that existed before the Ice Age, and the earliest appearances of modern flora and fauna.

Nez Perce National Historical Park - Spalding Visitor Center

Established: 1965. For thousands of years the valleys, prairies, mountains, and plateaus of the inland northwest have been home to the Nimiipuu or Nez Perce people. Explore these places. Learn their stories. Treat them with care. The 38 sites of Nez Perce National Historical Park are scattered across the states of Idaho, Oregon, Washington and Montana and have been designated to commemorate the stories and history of the Nimiipuu and their interaction with explorers, fur traders, missionaries, soldiers, settlers, gold miners, and farmers who moved through or into the area.

Yellowstone National Park

Established: 1872. Idaho can also boast of having a portion of the nation's oldest and most famous national park. A thin strip totaling 31,488 acres (of the park's 2 million plus acres) make up part of its western border. Long before any recorded human history in Yellowstone, a massive volcanic eruption spewed an immense volume of ash that covered all of the western U.S., much of the Midwest, northern Mexico and some areas of the eastern Pacific. The eruption dwarfed that of Mt. St. Helens in 1980 and left a caldera 30 miles wide by 45 miles long. That climactic event occurred about 640,000 years ago, and was one of many processes that shaped Yellowstone National Park—a region once rumored to be “the place where hell bubbles up.” Geothermal wonders, such as Old Faithful, are evidence of one of the world's largest active volcanoes. These spectacular features bemused and befuddled the park's earliest visitors, and helped lead to the creation of the world's first national park.

Hells Canyon National Recreation Area

Established: 1975. Hells Canyon, North America's deepest river gorge, encompasses a vast and remote region with dramatic changes in elevation, terrain, climate and vegetation. Carved by the great Snake River, Hells Canyon plunges more than a mile below Oregon's west rim, and 8,000 feet below snowcapped He Devil Peak of Idaho's Seven Devils Mountains. There are no roads across Hells Canyon's 10-mile wide expanse, and only three roads that lead to the Snake River between Hells Canyon Dam and the Oregon-Washington boundary.

Sawtooth National Recreation Area

Established: 1972. The SNRA, a part of the Sawtooth National Forest, is one of the most breathtakingly beautiful spots in Western America. Three classic mountain ranges with 40 peaks of 10,000 feet or higher provide scenic landscapes in every direction. More than 300 high mountain lakes are within the SNRA and hundreds of sparkling streams with the clarity of crystal. Headwater creeks of the Salmon River converge in the Sawtooth Valley to form this legendary “River of No Return.” Although the heartland of the SNRA is a 217,000-acre wilderness, it is only part of the total 756,000-acre SNRA.

Wild and Scenic Rivers

The National Wild and Scenic Rivers System was created in 1968 by Congress. Designation as a wild and scenic river is not designation as a national park. The Wild and Scenic Rivers Act does not generally lock up a river like a wilderness designation, the goal is to preserve the character of a river. Uses compatible with the management goals of a particular river are allowed; change is expected to happen. Development not damaging to the outstanding resources of a designated river, or curtailing its free flow, are usually allowed. The term “living landscape” has been frequently applied to wild and scenic rivers. Of course, each river designation is different, and each management plan is unique.

Middle Fork of the Clearwater

Designated Reach: October 2, 1968. The Middle Fork from the town of Kooskia upstream to the town of Lowell. The Lochsa River from its confluence with the Selway River at Lowell (forming the Middle Fork) upstream to the Powell Ranger Station. The Selway River from Lowell upstream to its origin.

Classification/Mileage: Wild — 54.0 miles; Recreational — 131.0 miles; Total — 185.0 miles.

The Middle Fork Clearwater includes the Lochsa and Selway Rivers, premier whitewater rivers. Part of the exploration route of Lewis and Clark follows the Lochsa River. Most of the Selway lies in Idaho’s Selway-Bitterroot Wilderness. These rivers offer clear, clean water, beautiful scenery with great plant diversity, and abundant wildlife.

Rapid

Designated Reach: December 31, 1975. The segment from the headwaters of the main stem to the national forest boundary. The segment of the West Fork from the wilderness boundary downstream to the confluence with the main stem.

Classification/Mileage: Wild — 26.8 miles; Total — 26.8 miles.

The water quality of Rapid River is exceptional; the river contains three listed fish species, chinook salmon, steelhead, and bull trout, and associated critical habitat. The river’s scenery is also outstanding; the steep gradient and narrow canyon focus the viewer’s perspective on the fast-moving water and diverse riparian vegetation.

Saint Joe

Designated Reach: November 10, 1978. The segment above the confluence of the North Fork of the St. Joe River to St. Joe Lake.

Classification/Mileage: Wild — 26.6 miles; Recreational — 39.7 miles; Total — 66.3 miles.

This northern Idaho river offers outstanding scenery, good fishing, and plenty of wildlife. The river was originally named the “St. Joseph” by Father Pierre-Jean DeSmet, a Catholic priest who established a mission there.

Salmon

Designated Reach: July 23, 1980. The segment of the main stem from the mouth of the North Fork of the Salmon River downstream to Long Tom Bar.

Classification/Mileage: Wild — 79.0 miles; Recreational — 46.0 miles; Total — 125.0 miles.

Known as “The River of No Return,” the Salmon River is the longest free flowing river (425 miles) within one state in the lower 48. It originates in the Sawtooth and Lemhi Valleys of central and eastern Idaho, and flows from the Sawtooth and Salmon River Mountains in the south, and the Clearwater and Bitterroot Mountains in the north, feed this wild river. The upper section passes through the Frank Church River of No Return Wilderness, while the lower section forms the southern boundary of the Gospel-Hump Wilderness. The Salmon flows through a vast wilderness in the second deepest gorge on the continent. Only the Snake River (Hells) Canyon is deeper. The Salmon’s granite-walled canyon is one-fifth of a mile deeper than the Grand Canyon. For approximately 180 miles, the Salmon Canyon is more than one mile deep. Largely due to this incredible wilderness, Congress designated 46 miles of the river, from North Fork to Corn Creek, as a recreational river and 79 miles, from Corn Creek to Long Tom Bar, as a wild river. From North Fork to Corn Creek, the spectacular canyon of the Salmon River has exposed some of the oldest known rocks in the state of Idaho. In the vicinity of Shoup, these rocks, called gneiss, have been dated as 1.5 billion years old. From Corn Creek to Long Tom Bar, the majority of the rocks exposed in the canyon walls are part of the Idaho Batholith. These rocks are generally called quartz monzonite and are approximately 65 million years old. The canyon itself was formed 35 to 45 million years ago. This rugged canyon provides habitat for an abundant and varied wildlife resource. Big game species commonly observed along the river include bighorn sheep, elk, mule deer, white-tailed deer, mountain goats, black bear, cougar, and moose. Small mammal populations also are well represented by species such as bobcat, coyote, red fox, porcupine, badger, beaver, mink, marten, river otter, muskrat, weasel, marmots and skunks. Waterfowl, shorebirds, and songbirds are particularly abundant during seasonal migrations. Chukar, partridge, blue grouse, ruffed grouse, and spruce grouse are also common residents. The main stem of the Salmon River provides habitat for a variety of fish species. These include: cutthroat trout, bull trout, rainbow trout, mountain white fish, sockeye salmon, chinook salmon (spring/summer/fall run), steelhead, smallmouth bass, squawfish, sucker and sturgeon. The river offers high quality sportfishing for resident populations of cutthroat and rainbow trout, steelhead and whitefish. Evidence suggests that man first inhabited the Salmon River country 8,000 years ago. White man came to the Salmon river in the very early 1800’s following Lewis and Clark’s 1805 expedition. There are several Native American and pioneer historical sites to visit along the river corridor. Many, such as the Jim Moore place, an early mining claim, are on the National Register of Historic Places.

Middle Fork of the Salmon

Designated Reach: October 2, 1968. From its origin to its confluence with the Main Salmon River.

Classification/Mileage: Wild — 103.0 miles; Recreational — 1.0 mile; Total — 104.0 miles.

One of the original eight rivers in the nation designated as Wild and Scenic on October 2, 1968, the Middle Fork of the Salmon River originates 20 miles northwest of Stanley Idaho, with the merging of Bear Valley and Marsh Creeks. The designated segment extends 100 miles from Dagger Falls to the confluence of the Middle Fork and the Main Salmon. The river traverses northeast through the heart of Idaho and the Frank Church River of No Return Wilderness, flowing through a canyon that is the third deepest in North America. The Middle Fork is one of the last free flowing tributaries of the Salmon River system. Because of its remote location, man's presence in the area was somewhat limited, leaving it in the condition we see today. Only a few trails, landing strips, private ranches, and Forest Service stations are evidence of man's intrusion. While man's impact on the area has been relatively light, it has been diverse. The Native Americans who occupied the Middle Fork drainage were known as The Sheepeaters. They gained their name from the bighorn sheep that were prevalent in the area and constituted much of their diet. White trappers, miners and settlers began coming into the area in the 1850's. No road access was ever built, and all supplies came in by horseback. Floating the river began in the 20's with a few adventurous souls who wanted to see beyond the rock wall canyon at Big Creek where the trail ended. Wildlife along the Middle Fork river is abundant due to the designation and isolation of the Frank Church River of No Return Wilderness. The river moves through a variety of climates and land types, from alpine forest to high mountain desert to sheer rock walled canyon, creating a wide variety of habitats. Deer, elk, bighorn sheep, mountain goat, bear and cougar are just a few of the animals to make the area their home. The Middle Fork drainage was one of the sites for the wolf reintroduction program. The fishery is one of the best catch and release fly fisheries in the nation. The Frank Church River of No Return Wilderness occupies part of an extensive geological formation known as the Idaho Batholith. This formation, mainly granite, has been severely eroded, exposing underlying rock formations laid down during the Precambrian, Permian, Triassic, and Cretaceous periods.

Snake

Designated Reach: December 1, 1975. The segment from Hells Canyon Dam downstream to an eastward extension of the north boundary of section 1, T5N, R47E, Willamette meridian.

Classification/Mileage: Wild — 32.5 miles; Scenic — 34.4 miles; Total — 66.9 miles.

The Snake River likely got its name from the first white explorers who misinterpreted the sign made by the Shoshone people—who identified themselves in sign language by moving the hand in a swimming motion—which appeared to these explorers to be a “snake”; it actually signified that they lived near the river with many fish. In the 1950's the name “Hells Canyon” was borrowed from Hells Canyon Creek, which enters the river near what is now Hells Canyon

Dam. In the old days, Hells Canyon was known as Snake River Canyon or Box Canyon, though a few locals called it the “Grand Canyon of the Snake.” The Hells Canyon area was once home to Shoshone and Nez Perce tribes. According to the Nez Perce tribe, Coyote dug the Snake River Canyon in a day to protect the people on the west side of the river from the Seven Devils, a band of evil spirits living in the mountain range to the east. In the late nineteenth century, the military drove the Native Americans out and settlers began ranching and mining in the canyon. Today, boaters can explore archaeological sites and old homesteads, all part of the canyon’s rich, colorful history. Hells Canyon is one of the most imposing river gorges in the West. Until a million years ago, the Owyhee Mountains acted as a dam between the Snake River and its current confluence with the Columbia River, creating a vast lake in what is now southwestern Idaho. When the mountains were finally breached, the Snake roared northward, cutting a giant chasm through the volcanic rock. The resulting canyon, roughly ten miles across, is not as dramatic as the Grand Canyon. However, when the surrounding peaks are visible from the river, the sense of depth is tremendous. The adjacent ridges average 5,500’ above the river. He Devil Mountain, tallest of the Seven Devils (9,393’) towers almost 8,000’ above the river, creating the deepest gorge in the United States. The river is as big as the landscape. Below Hells Canyon Dam, the Snake usually carries more water than the Colorado River through the Grand Canyon. Below the confluence with the Salmon River, flows average 35,000 cfs and often peak over 100,000 when the Salmon is high. Further downstream, the Clearwater and other rivers dump their flows into the Snake River, creating the Columbia River’s largest tributary. (The total drainage area is approximately the size of Oregon.)

National Conservation Areas

Birds of Prey Natural Area

Created: 1993

Along the Snake River, 20 miles south of Boise Idaho, the NCA contains 485,000 acres. This includes 81 miles of the Snake River, 65,000 acres of critical nesting habitat, and 420,000 acres of prey habitat. A unique combination of climate, geology, soils, and vegetation has created a complete and stable ecosystem where predators and prey occur in extraordinary numbers. Canyon walls along the Snake River, ranging up to 600 feet high, provide abundant nest sites for birds of prey. Deep, wind blown soils cover expansive plateaus above the canyon. An unusual variety and high number of small mammals burrow in the fine textured soils, and find food and cover in the dense grasses and shrubs that grow on the plateau. Paiute ground squirrels are the most abundant burrowing species. Portions of the area support the densest ground squirrel populations ever recorded, they are the main prey of Prairie falcons. Blacktailed jackrabbits are an important prey species, especially for Golden eagles. Pocket gophers, kangaroo rats, and deer mice are also common prey species. The NCA contains the densest concentration of nesting birds of prey in North America, and one of the densest in the world, more than 700 pairs of raptors nest here, representing 15 species. The NCA’s prairie falcon population represents a significant portion of the species population. In all, 259 wildlife species inhabit the area; 45 mammal, 165 bird, 8 amphibian, 16 reptile, and 25 fish species. The Snake River Canyon within the NCA contains some of the oldest and most remarkable Native American

archaeological sites in Idaho. Over 200 sites are recorded, including numerous outstanding petroglyphs. Human occupation has been dated to 10,000 B.C. In 1979 the Black Butte-Guffey Butte Archaeological District, located entirely within the NCA, was placed on the National Register of Historic Places. Portions of the Oregon National Historic Trail traverse the length of the NCA. Certain trail remnants are among the best preserved in the nation. The 1860's discovery of gold in the nearby Owyhee Mountains brought settlement to the area. Three sites from this period are on the National Register of Historic Places, including Swan Falls Dam (1901), the first hydroelectric dam on the Snake River.

National Natural Landmarks

The National Natural Landmarks Program recognizes and encourages the conservation of outstanding examples of our country's natural history. It is the only natural areas program of national scope that identifies and recognizes the best examples of biological and geological features in both public and private ownership. National Natural Landmarks (NNLs) are designated by the Secretary of the Interior, with the owner's concurrence. To date, fewer than 600 sites have been designated. The National Park Service administers the NNL Program, and if requested, assists NNL owners and managers with the conservation of these important sites. **NNLs are not National Parks. NNL status does not indicate public ownership, and many sites are not open for visitation.*

Big Springs

Fremont County - 54 miles northeast of Rexburg. Designated 1980. Owner: Federal
The springs emanate from rhyolite lava flows of the Madison Plateau, which comprise one of the largest rhyolite lava fields in the United States. Big Springs is the only first magnitude spring in the United States that issues forth from rhyolitic lava flows. It is the source of the South Fork of the Henry's Fork River.

Big Southern Butte

Butte County - 37 miles northwest of Blackfoot. Designated 1976. Owner: Federal
The butte is composed of light-colored silicic volcanic rocks and stands nearly 760 meters above the low relief surface of the Eastern Snake River Plain. The site is an ecological "island" supporting vegetation such as lodgepole pine (*Pinus contorta*), aspen (*Populus sp.*), Douglas fir (*Pseudotsuga menziesii*), and manzanita (*Arctostaphylos sp.*) not common to this region. The largest area of volcanic rocks of young age in the United States.

Cassia Silent City of Rocks

Cassia County. Designated 1974 Owner: Federal, State and Private.
Contains monolithic landforms created by exfoliation processes on exposed massive granite plutons, and the best example of bornhardts in the country.

Crater Rings

Elmore County. Designated 1980. Owner: Federal

Two adjacent and symmetrical pit craters that are among the few examples of this type of crater in the continental United States. The pit craters, which are volcanic conduits in which the lava column rises and falls, were formed by explosions followed by collapse.

Great Rift System

Blaine County and extends into Minidoka and Power Counties - 43 miles northwest of Pocatello. Designated 1968. Owner: Federal

As a tensional fracture in the Earth's crust that may extend to the crust-mantle interface, the Great Rift System is unique in North America and has few counterparts in the world. It also illustrates primary vegetation succession on very young lava flows.

Hagerman Fauna Sites

Twin Falls County - West and southwest of Hagerman. Designated 1975. Owner: Federal and State.

Contains the world's richest deposits of Upper Pliocene Age terrestrial fossils, therefore considered to be of international significance.

Hell's Half Acre Lava Field

Bingham County and extends into Bonneville County - The center of the site is 20 miles west of Idaho Falls. Designated 1976. Owner: Federal and State

A complete, young, unweathered, fully exposed pahoehoe lava flow and an outstanding example of pioneer vegetation establishing itself on a lava flow.

Hobo Cedar Grove Botanical Area

Shoshone County - 12 miles northeast of Clarkia. Designated 1980. Owner: Federal.

An outstanding example of pristine western red cedar forest. Two communities are represented: cedar/Oregon boxwood on the uplands and cedar/fern on the lowlands.

Menan Buttes

Jefferson County and extends into Madison County. Designated 1980. Owner: Federal and Private.

Contains outstanding examples of glass tuff cones, which are found in only a few places in the world. Their large size and unusual composition make them particularly illustrative of an unusual aspect of basaltic volcanism.

Niagara Springs

Gooding County. Designated 1980. Owner: Private.

The least developed of the large springs discharging into the Snake River from the Snake River Plain aquifer system. It is outstandingly illustrative of the enormous volume of water transmitted through this aquifer.

Sheep Rock

Adams County - In Payette National Forest, 35 miles northwest of Council and two miles east of the Snake River. Designated 1976. Owner: Federal

Provides the best view of the horizontally layered lavas that represent successive flows on the Columbia River Basalt Plateau, and an unobstructed view of two contrasting series of volcanic rocks separated by a major unconformity—an important geologic phenomenon.

National Historic and Recreation Trails

California National Historic Trail

The California Trail carried over 250,000 gold-seekers and farmers to the gold fields and rich farmlands of California during the 1840's and 1850's, the greatest mass migration in American history. Today, more than 1,000 miles of trail ruts and traces can still be seen in the vast undeveloped lands between Casper, Wyoming and the West Coast, reminders of the sacrifices, struggles, and triumphs of early American travelers and settlers. More than 240 historic sites along the trail will eventually be available for public use and interpretation. The California Trail system (more than 5,500 miles) was developed over a period of years, and numerous cutoffs and alternate routes were tried to see which was the "best" in terms of terrain, length and sufficient water and grass for livestock. The general route began at various jumping off points along the Missouri River and stretched to various points in California, Oregon, and the Sierra Nevada. The specific route that emigrants and forty-niners used depended on their starting point in Missouri, their final destination in California, the condition of their wagons and livestock, and yearly changes in water and forage along the different routes. The trail passes through the states of Missouri, Kansas, Nebraska, Colorado, Wyoming, Idaho, Utah, Nevada, Oregon, and California.

Continental Divide National Scenic Trail

Elevations range from 7,000 to 11,000 feet. From Summit Lake Trail in Yellowstone National Park, the trail meanders along the Idaho-Montana border for 80 miles through the Beaverhead National Forest. The Continental Divide National Scenic Trail does not actually go through Idaho, but rather runs along the border of Idaho and Montana. It runs through the rugged and beautiful Beaverhead Range, then east through the Centennial Mountains. Address: Continental Divide Trail Alliance, PO Box 628 Pine CO 80470; Phone: 303-838-3760 or 888-909-CDTA; Fax: 303-838-3960; Email: info@cdtrail.org

Idaho Centennial Trail

The Idaho Centennial Trail travels 1200 miles from the Canadian border to the border with Nevada. It passes through all the ecological zones of the state: old growth cedar groves, clear glacial lakes, precipitous and rugged peaks, deep forests carpeted with ferns, granite spires, rushing rivers, and sagebrush steppes. The wildlife varies with the landscape, and adventurers may encounter just about any species in Idaho. The rivers and lakes are uniformly filled with game fish; raptors and waterfowl nest along the waterways. The forests are home to big game, from bighorn sheep and mountain goats to deer, elk, and moose. The expansive sage grasslands offer habitat to antelope, pheasant, grouse, and other upland game birds. The trail includes single track trails, jeep trails, and dirt roads, so any kind of user can appreciate the best that Idaho has to offer. The trail branches in the center of the state, so those on mountain bikes, snowmobiles, ATVs or trail bikes have a non-wilderness alternative. From Murphy Hot Springs at the Nevada state line to Upper Priest Falls, near the Canadian border. Enroute it passes through the Owyhee Uplands, the Sawtooth National Forest and National Recreation Area, the Challis, Boise, Payette and Nez Perce National Forests, the Frank Church River of No Return Wilderness, the Clearwater National Forest, and the Idaho Panhandle National Forests. Address: Idaho Trails Council, PO Box 1629, Sun Valley ID 83353; Phone: 208-622-3046

Lewis and Clark National Trail

The Lewis and Clark Expedition, which occurred from 1804 to 1806, was one of the most dramatic and significant episodes in the history of the United States. It stands, incomparably,

as our nation's epic in documented exploration of the American West. On the journey to the Pacific Ocean, the Lewis and Clark Expedition passed through north central Idaho. There are several historic sites and trails.: **Traveller's Rest:** Campsites of September 9-10, 1805, and June 30, 1806, near present-day Lolo, Montana. **Campsites of September 11 and 12, 1805:** Along present-day Lolo Creek in Montana. **Lolo Hot Springs:** A resort today. **Packer Meadows:** The site where the Expedition rested on the return trip. Find it just east of the visitor center at Lolo Pass. **Glade Creek Camp:** The site where the Expedition camped on September 13, 1805, a mile from the Lolo Pass Visitor Center and a few hundred yards off Forest Service Road 5670. **Colt Killed Camp:** The site where the Expedition camped on September 14, 1805. It's at the Powell Ranger Station. Here the Expedition, unable to find game in the mountain, killed a young horse for food. **Whitehouse Pond:** The small pond named by Private Whitehouse and noted in his journal. From here the Expedition left the river bottom and climbed up a steep ridge to the mountains to the north. A visitor seeking the true Lewis and Clark experience can hike a five-mile trail up that ridge line. **Sites accessible from Kamiah or Weippe:** Along well-maintained gravel roads near Weippe. **Salmon Trout Camp:** The site where the Corps camped June 18, 1806, waiting for the snows to melt in the high country. Short of food as they had been unsuccessful at hunting, they shot at several salmon a number of times without success. **Small Prairie Camp:** The site where the Corps camped June 15, 1806, in a hard rain. **Lewis and Clark Grove:** The site where Captain Clark, with five hunters, camped September 19, 1805, after coming 22 miles "...over a mountain, ...through much falling timber (which caused our road of to day to be double the direct distance on the course)...." **Pheasant Camp:** The site where the main party under Captain Lewis camped September 21, 1805. Lewis wrote, "...we killed a few pheasants...." **Weippe:** The site where Clark came across a few Nez Perce Indians near present-day Weippe on September 20, 1805. Today the site of the meeting is commemorated with a highway sign. The route along the ridge line followed by the Expedition is visible to the east.

Nee-Me-Poo (Nez Perce) National Historical Trail

In the summer of 1877, the Nez Perce were forced to move to a reservation, and a small band, some led by Chief Joseph, resisted. After repeated treaties had been broken, a small group of Nez Perce warriors lost patience and killed some particularly unfriendly settlers. Fearing retribution, the band fled through Idaho, Wyoming, and Montana, seeking refuge in Canada. They were pursued doggedly by the US Army and several volunteers, and eventually caught after fleeing over 1500 miles in three and a half months. Location: In its 1,170-mile route toward Canada, the trail runs from Wallowa Lake, Oregon to the Bear Paws Mountains in northern Montana, and passes through the states of Oregon Idaho, Wyoming and Montana, crossing tribal, private, county, state, and Federal lands. Address: The Nez Perce Trail Foundation, 194 Hwy 28, Salmon ID 83467; Phone: 208-940-0053

Oregon Trail National Historic Trail

In the mid-1800s, thousands of pioneers followed the Oregon Trail 2,000 miles from Missouri to Oregon in search of a better life. However, the Oregon Trail was never just one route. The Idaho portion of the Oregon Trail crossed deserts, mountains, and dangerously turbulent or deep rivers. Some emigrants deviated from the main trail in search of water and livestock forage, while others found shortcuts and better routes to avoid difficult terrain. Two segments of the primary route, North Trail and Sinker Creek, are located in

southwestern Idaho, and visitors today can still see original wagon ruts. Interpretive sites at Bonneville Point, 16 miles southeast of Boise, and at the Milner Site, 4 miles west of Burley, explain the challenges faced by courageous pioneers. Natural landmarks on the Oregon Trail include: **Smith's Fort**: Trading post owned by mountain man Peg Leg Smith who supplied travelers 1848-1849. **Sheep Rock**: Named for mountain sheep seen by early travelers. Now called Soda Point, it is not far from the modern town of Soda Springs. Hudspeth's Cutoff branches from the main trail here. **Soda Springs**: Steamboat Spring and Beer Spring were dubbed the Soda Springs because they bubbled out of the ground. Now covered by the Soda Point Reservoir. The modern town of Soda Springs gets its name from these springs. **American Falls**: These falls were mentioned in the diaries of immigrants traveling the trails. **Massacre Rocks**: 25 families from Iowa were attacked here August, 1862. Fort Hall: Founded in 1834 by Nathaniel Wyeth. Later purchased by the Hudson's Bay Company. Abandoned in 1856. **Twin Springs**: A welcome end to a stretch of desert along Hudspeth's Cutoff. **City of Rocks**: Formations of soft granite. **Salmon Falls**: Famous Indian fishing spot where travelers traded for fresh food. Not the same location as the modern town of Salmon. **Twin Falls**: Side by side waterfalls are as good as their name. **Shoshone Falls**: An impressive waterfall dropping into the Snake River Canyon. Worth a side trip by wagon or car. **Thousand Springs**: A series of waterfalls coming from the wall of the Snake River Canyon. **Three Island Crossing**: Three small islands in the Snake River give this river ford its name. **Hot Springs**: East of the modern town of Mountain Home. Not the same hot spring as Lava Hot Springs. **Givens Hot Springs**: On the southern alternate route. **Fort Boise**: Established in 1834 by the Hudson's Bay Company. The trail in Idaho leads from the southeastern corner of the state, through the central part of the state along the Snake River, near Boise and into Oregon.

Pacific Northwest Trail

The 1200 mile Pacific Northwest Trail (PNT), running from the Continental Divide to the Pacific Ocean, ranks among the most scenic trails in the world. This carefully chosen path is high for the views and long on adventure. It includes the Rocky Mountains, Selkirk Mountains, Pasayten Wilderness, North Cascades, Olympic Mountains, and Wilderness Coast. The trail crosses 3 National Parks and 7 National Forests.

Trail of the Coeur d'Alenes

The Trail of the Coeur d'Alenes is one of the most spectacular trails in the western United States. The trail nearly spans the Panhandle of Idaho as it runs along rivers, beside lakes and through Idaho's historic Silver Valley. Dispersed along the trail are 36 unique bridges and trestles that cross mountain creeks, whitewater rivers and tranquil lakes. The east end of the trail passes through a narrow mountain valley once heavily mined for silver. The valley is dotted with numerous small historic mining communities each offering their own unique features. The middle section of the trail follows the tranquil Coeur d'Alene River, passing fifteen small lakes and marshes loaded with waterfowl. The west end of the trail lies along the shoreline of scenic Coeur d'Alene Lake for six miles. It crosses a 3100-foot bridge/trestle to Heyburn State Park, the Northwest's oldest state park. The trail then follows the remote forested Plummer Creek Canyon for six miles, ending in the community of Plummer.

William Pogue National Recreation Trail

3400-foot elevation. Trail splits at trailhead. One branch heads east along Sheep Creek to connect with the Roaring River Trail (11 miles). The other branch goes due south, following Corral Creek and meeting Forest Road 221 (8.5 miles). Both sections are open to bikes, motorcycles, horses, and hikers. Spurs off the William Pogue trail are Lava Mountain, Lower Lava Mountain, and Devils Creek, which all branch off to the south from the Sheeps Creek section. Information at trailhead kiosk. From Boise, go 17 miles north on ID 21, then 26 miles east on Forest Road 268, around the Arrowrock Reservoir.

Address: Mountain Home Ranger District, Boise National Forest, 2180 American Legion Blvd., Mountain Home ID 83647

Wright Creek National Recreation Trail

This trail runs 12 miles through the Elkhorn Mountain Range from Summit Campground to Reed Canyon. Follow Indian Mill Trail from Summit Campground to enjoy fantastic views from the summit of Elkhorn Peak, at 9095 feet. This trail is a scenic route open to year round recreational use. This trail can be done as a loop by returning other area trails. Hunting for mule deer in the fall. There is a stock loading ramp in the parking lot for equestrians. The Elkhorn Mountain region features high peaks, and is the largest roadless area in the Bannock Range. The steep slopes of the canyon are thickly forested with pine and fir, maple, and aspen. The trail passes through the saddle north of the summit. Area wildlife includes mule deer, and some elk, cougar, and bear.

National Wildlife Areas

Managed by the U.S. Fish and Wildlife Service, the National Wildlife Refuge System preserves a network of lands and waters set aside for the conservation and management of the nation's fish, wildlife, and plant resources for the benefit of present and future generations. Information can be obtained from the following sources:

Bear Lake National Wildlife Refuge

PO Box 9, Montpelier ID 83254

208-847-1757

Office in Montpelier. The refuge is located 7 miles southwest of Montpelier. Drive 3 miles west of Montpelier on U.S. Highway 89. Turn south on the graveled Bear Lake County Airport Road. Drive 5 miles to the north entrance of the refuge.

Primary Wildlife: Especially important as a nesting area for white-faced ibis, Canada geese and redhead ducks. Also a nesting, resting and feeding area for ducks, greater sandhill cranes, and a variety of water and shorebirds. **Habitat:** 19,000 acres of marsh, open water, and grasslands at an elevation of 5,900 feet in the mountain-ringed Bear Lake Valley. The marsh is drawn down severely for agriculture in late summer and is covered with ice in winter. **Recreation and Education:** Wildlife observation, study and photography, Waterfowl hunting.

Deer Flat National Wildlife Refuge

13751 Upper Embankment Road

Nampa 83686

208-467-9278

Nestled in the rolling sagebrush hills of southwest Idaho, the watery oasis at Deer Flat National Wildlife Refuge provides an important breeding area for birds and mammals, as well as other wildlife. The refuge is also a significant resting and wintering area for birds migrating along the Pacific Flyway, including spectacular concentrations of mallards and Canada geese. Because of its value to birds, Deer Flat National Wildlife Refuge has been declared a Globally Important Bird Area by the American Bird Conservancy. Deer Flat National Wildlife Refuge has two sectors—Lake Lowell and the Snake River Islands. The Lake Lowell sector encompasses 10,588 acres, including the almost 9,000-acre Lake Lowell and surrounding lands. The Snake River Islands sector contains about 800 acres on 101 islands. These islands are distributed along 113 river miles from the Canyon-Ada County Line in Idaho, to Farewell Bend in Oregon. The refuge protects a wide range of wildlife habitats: from the open waters and wetland edges of Lake Lowell, to the sagebrush uplands around the lake, to the grasslands and riparian forests on the Snake River islands. Refuge staff use a variety of wildlife management techniques to create and maintain wildlife habitat. With assistance from local growers, the refuge also cooperatively farms 240 acres to provide food for wildlife. Deer Flat, founded by President Teddy Roosevelt on February 25, 1909, is one of the oldest refuges in the National Wildlife Refuge System, which now includes 540 refuges. The NWRS celebrated its centennial in March of 2003. Managed by the U.S. Fish and Wildlife Service, the System preserves a network of lands and waters set aside for the conservation and management of the nation's fish, wildlife, and plant resources for the benefit of present and future generations.

Grays Lake National Wildlife Refuge

74 Grays Lake Road

Wayan Idaho 83285

208-574-2755

From Soda Springs, go north on Highway 34 for about 27 miles. Turn at refuge sign. From the intersection it is about 3 miles north to the refuge office, visitor center and overlook.

Primary Wildlife: The largest nesting population of greater sandhill cranes in the world. Nesting area for Canada geese and a variety of diving and dabbling ducks. Franklin's gulls nest in large colonies and may reach nearly 40,000 in some years. These colonies also attract large numbers of nesting white-faced ibis. **Habitat:** 18,330 acres of high mountain marsh at the foot of Caribou Mountain. **Recreation and Education:** Wildlife observation, study, and photography, Visitor center, Waterfowl hunting, Wildflower bloom peaks around mid-June, Foot traffic (including cross country skiing and snow shoeing) is allowed on the northern half of the refuge from October 10 - March 31.

Kootenai National Wildlife Refuge

HCR 60 Box 283
Bonners Ferry Idaho 83805
208-267-3888

Kootenai National Wildlife Refuge is located in Idaho's Panhandle approximately 20 miles south of the Canadian border and 5 miles west of Bonners Ferry Idaho. This 2,774 acre refuge was established in 1965, primarily to provide important habitat and a resting area for migrating waterfowl. The Refuge is comprised of a wide variety of habitat types. Wetlands, meadows, riparian forests and cultivated agricultural fields (for producing valuable wildlife food crops) are interspersed in the valley bottom adjacent to the west banks of the Kootenai River. Wetlands include open-water ponds, seasonal cattail-bulrush marshes, tree-lined ponds and rushing creeks. The western portion of the refuge ascends the foothills of the scenic Selkirk Mountains which consists of dense stands of coniferous trees and tranquil riparian forests. Over 300 different species of wildlife can be found on Kootenai National Wildlife Refuge, indicating the richness and diversity this area holds. The refuge not only serves as valuable habitat for resident and migratory wildlife, but provides a nice stopping point for visitors to get out and enjoy some of the vast natural beauty Boundary County has to offer.

Minidoka National Wildlife Refuge

961 E. Minidoka Dam
Rupert Idaho 83350
208-436-3589

From Rupert, drive about 5.5 miles northeast on Highway 24, turn right on the Minidoka Dam road and follow it to the refuge.

Primary Wildlife: Up to 100,000 ducks and geese are present during spring and fall migrations. Migrating tundra swans can be seen in spring in shallow bays and shores of the lake. Bald eagles, golden eagles, hawks, and owls are frequently seen. Mule deer are year-round residents and pronghorn antelope are occasionally seen. **Habitat:** 20,721 acres, including 11,000 surface acres of Lake Walcott, which is created by the Bureau of Reclamation's Minidoka Dam. An abundance of aquatic vegetation is found in small bays and inlets of the lake. Surrounding uplands are typical sagebrush and grassland. **Recreation and Education:** wildlife observation, study, and photography; waterfowl and resident game bird hunting; trout fishing

National Historic Landmarks

National Historic Landmarks are nationally significant historic places designated by the Secretary of the Interior because they possess exceptional value or quality in illustrating or interpreting the heritage of the United States. Today, fewer than 2,500 historic places bear this national distinction. Working with citizens throughout the nation, the National Historic Landmarks Program draws upon the expertise of National Park Service staff who work to nominate new landmarks and provide assistance to existing landmarks.

U.S. Assay Office

210 Main Street, Boise ID 83702

Designation: May 30, 1961

National Register Number: 66000305

Built by the Federal Government in 1870-71, the Boise Assay Office illustrates the importance of mining in the political, social, economic, and legal development of Idaho and the Far West. In operation from 1872 to 1933, it is one of the most significant public buildings remaining from Idaho's territorial days.

Bear River Massacre Site

Preston, Franklin County ID

Designation: June 21, 1990

National Register Number: 73000685

On January 29, 1863, California Volunteers under the command of Col. Patrick Edward Conner attacked a band of Northwestern Shoshone. The bloodiest encounter between Native American and white men to take place in the West in the years between 1848 and 1891, Bear River Massacre resulted in the deaths of almost 300 Shoshone and 14 soldiers.

Camas Meadows Battle Site

Kilgore, Clark County ID

Designation: April 11, 1989

National Register Number: 89001081

On August 19, 1877, the military force led by Maj. Gen. Oliver O. Howard which had been pursuing the Nez Perce since their departure from Clearwater was in a position to intercept them in their flight to Canada. Here, on August 20, a pre-dawn raid by Nez Perce warriors succeeded in capturing most of Howard's pack mules, forcing the army to halt until more mules and supplies could be secured, which resulted in a time-consuming detour. The army's delay made it possible for the Nez Perce to escape into Yellowstone Park and Montana. Their remarkable journey toward Canada continued six weeks longer as a result of this raid.

Cataldo Mission

Cataldo, Kootenai County ID

Designation: July 4, 1961

National Register Number: 66000312

Built around 1850 by Jesuit missionaries and Coeur d'Alene Indians, this log and adobe church with Baroque and Greek Revival details is the oldest surviving church in the Pacific Northwest and also the oldest structure in Idaho. The mission restoration project was completed in 1975 and is now a museum administered by the Idaho Department of Parks and Recreation.

Experimental Breeder Reactor #1

Near Arco, Butte County

Designation: December 21, 1965

National Register Number: 66000307

On December 20, 1951, the EBR-I produced the first usable amounts of electricity created by nuclear means; in July 1963, it was the first reactor to achieve a self-sustaining chain reaction using plutonium instead of uranium as the major component in the fuel. In addition, the EBR-I was the first reactor to demonstrate the feasibility of using liquid metal at high temperatures as a reactor coolant.

Fort Hall

Bannock County

Designation: January 20, 1961

National Register Number: 66000306

Fort Hall is the most important trading post in the Snake River Valley and is known for its important association with overland migration on the Oregon-California Trails. In the 1860s and 1870s it was a key road junction for the overland stage, mail and freight lines to the towns and camps of the mining frontier in the Pacific Northwest.

Lemhi Pass

Tendoy, Lemhi County ID

Designation: October 9, 1960

National Register Number: 66000313

On August 12, 1805, when he reached the summit of this pass, Meriwether Lewis stood on the boundary of newly-acquired Louisiana, looking west to the snow-capped peaks of the Bitterroot and Salmon River Ranges, into what was then Spanish territory. Situated on a remote section of the Beaverhead Range, at an elevation of 7373' above sea level, Lemhi Pass was the point where the Lewis and Clark Expedition crossed the Continental Divide.

Lolo Trail

Lolo Hot Springs, Clearwater County ID

Designation: October 9, 1960

National Register Number: 66000309

When, after reaching Lemhi Pass and crossing the Continental Divide, navigation of the Salmon River proved impossible, Lewis and Clark determined to use one of the several trails over the mountains used by the Nez Perce in their annual journeys to the buffalo plains in the east. The Lolo Trail, used by the explorers to cross the Bitterroot Mountains in September 1805, represents probably the most arduous single stretch of the entire route traveled by the expedition.

Weippe Prairie

Weippe, Clearwater County ID

Designation: May 23, 1966

National Register Number: 66000311

On the morning of September 20, 1805, an advance party of the Lewis and Clark Expedition came out of the Bitterroot Mountains onto the southeastern corner of Weippe Prairie, the western terminus of the Lolo Trail and long a favored source of camas root for the Nez Perce Indians. Here, the expedition first encountered the Nez Perce, who had never before seen white men. The Nez Perce gave the explorers food as well as much-needed help and directions during the 2-1/2 week period spent in their territory.

Idaho Historic Sites

The Idaho State Historical Society oversees historic sites at four locations in the state which are operated in conjunction with local support groups.

Old Idaho Penitentiary

2445 Old Penitentiary Road

Boise ID 83712

208-334-2844

Directions: From the intersection of Broadway and Warm Springs Avenue, travel east on Warm Springs for about 1.5 miles then turn left onto Old Penitentiary Road.

Idaho Territory was less than ten years old when the territorial prison was built east of Boise in 1870. The penitentiary grew from a single cellhouse into a complex of several distinctive buildings surrounded by a high sandstone wall. Convicts quarried the stone from the nearby ridges and completed all the later construction. Over its century of operation, the penitentiary received more than 13,000 convicts, of whom 215 were women. Spurred in part by conditions that sparked a general riot in 1971 and an even more severe riot in 1973, the inmate population was moved to a modern penitentiary south of Boise and the Old Idaho Penitentiary was closed on December 3, 1973. After the Penitentiary closed in 1973, the site was placed on the National Register of Historic Places.

Rock Creek Station and Stricker Homesite

Willow-lined Rock Creek has formed a welcome refuge for Native Americans, explorers, and pioneers traveling through south central Idaho for centuries. Because it is located in a high desert area where average yearly rainfall is less than 10 inches, the availability of water and plant life was a natural draw to voyagers and those in search of a permanent settlement. Beginning around 1810, explorers and mountain men followed Indian trails as they trapped in all the drainages of the Snake River in the area, including Rock Creek. By 1840, dwindling beaver populations forced fur traders to a new occupation—guiding emigrants through the area. In the 1840s, a rush of settlers followed the Oregon Trail to the Oregon country. Rock Creek was a popular camping spot along the Trail from the outset, and wagon ruts can still be seen at the site. When gold miners who rushed to southern Idaho in the early 1860s needed delivery of freight and mail, Rock Creek became a stop on what became the Kelton Wagon Road. In 1864, Ben Holladay was awarded a contract to deliver mail from Salt Lake City to Walla Walla, Washington. When his agents built Rock Creek, it became a “home station,” where stage drivers and attendants lived while they were off duty and where passengers could buy a meal or a night’s lodging. The original station consisted of a lava-rock building that served as a hotel and barn. In 1865 a store was built at the site. A small community grew up around the business, which also became a social center. Railroad construction boosted the prosperity of Rock Creek for a period of time when the transcontinental railroad provided a faster and less expensive means of bringing freight and mail into Utah. Those goods were then transported to their destinations in Idaho along the Kelton Wagon Road from the nearest railroad stop, at Kelton, Utah. In 1884 the Oregon Short Line Railroad was constructed on the north side of the Snake River — across the river from Rock Creek — and ultimately contributed to a decline in the community’s importance. While the Rock Creek Station was near a railroad, the great crack in the earth that formed the Snake River Canyon isolated the settlement and its use as a stage stop dwindled. The many large ranches that were developed in the area depended on the store, however, and the cattle industry helped to expand the community. The 1880 census reported that 44 people lived in the Rock Creek Valley. The 1900 census listed 146 people living at Rock Creek.

Rock Creek Store: James Bascom and John Corder built the store at Rock Creek in 1865,

a year after the area had been designated a “home station” on the new Overland Stage Line route. The store was also the first trading post between Boise and Fort Hall, and a stopping point on the Oregon Trail and the Kelton Wagon Road. In 1871 a post office was established in the store, and it also served as a polling place during elections. In the fall of 1876, two German emigrants, Herman Stricker and John Botzet, bought the store and contents, a stable and contents, and a dwelling house for approximately \$5,300. Stricker became the Rock Creek postmaster in 1877 and served in that position for the next 22 years. An addition on the north end of the building housed a saloon and card room for use by settlers, cowboys, and travelers. The store was closed in 1897 and later served several times as a home for families. The small log store building remains intact at the west end of the site. Its sod roof was replaced with shingles after a wet winter in 1879-80 and is now covered by a preservation roof constructed in 1985.

Dry Cellar: Located north of the Rock Creek Store, the cellar was used for storage of food and supplies, as a jail, and reportedly for protection from Indians. A semi-subterranean structure, it was created by utilizing a natural depression in the basalt and enlarging it by removing additional rock. Poles and a dirt roof were added to complete the structure. It is entered through a door on the south side of the structure.

Wet Cellar: Also located north of the Rock Creek Store, the cellar was used to store saloon supplies. It too is a semi-subterranean structure created by utilizing the natural depression in the basalt, enlarged by removing additional rock. Poles and a dirt roof were added to complete the structure. It is entered through a door on the south side.

Stage Station Site: Built by Ben Holladay to accommodate 40 horses and overnight stops by stage passengers and to serve meals on his Overland Stage Line route, the foundation of the building is still visible east of the dry and wet cellars.

China House Site: A gathering place for Chinese attracted to the area by mining, this small building was located east of the Rock Creek Store and may have been used as an opium parlor or a store that sold Chinese merchandise. Beyond mining, Chinese settlers tended gardens and sold vegetables at the site. Eventually, open hostility from other residents and restrictive emigration laws, such as the Exclusion Act of 1882, forced the Chinese to leave the area. Positioning of China House on the site is identified by lava-rock markers outlining the approximate location of its foundation. Recent archaeological investigations by ISHS archaeologists at the China House have identified possible structural remains and Chinese domestic refuse (rice bowl fragments, a celadon teacup sherd, soy sauce and/or ginger jar fragments). Future excavations are planned to help augment the historical record by attempting to determine the full extent and intensity of the Chinese presence at Stricker Ranch during the late nineteenth century.

Stricker House: Herman Stricker, who moved to Rock Creek in 1876, filed for and was granted a water claim for 300 inches of Rock Creek water. He completed a ditch for irrigation and mining in 1884 and appropriated an additional 200 inches of Rock Creek water at that time. Stricker homesteaded additional land until his family holdings totaled 960 acres. An original six-room log cabin constructed by Stricker near the store burned down in March of 1900. Later that year, the Stricker family built a new home, which exists today on the southeast corner of the Rock Creek site. The house was constructed with walls of hand-hewn lumber hauled from Albion. In 1916 the original 11-room structure was expanded with an extension on the formal dining room, present kitchen, bath, service entrance, sun porch, and storage area. The upper floor of the house served as a hotel for travelers, cowboys, and engineers and surveyors during construction of Milner Dam and the Twin Falls Canal.

Summer House: Located south of the Stricker Ranch House, this building served as the kitchen during 1916 construction on the original home and was used during hot weather to help keep the house cool.

Pioneer Cemetery: Located on a five-acre piece of private land west of the Rock Creek site for which the Society has responsibility, the cemetery contains graves dating from 1874 to 1897. Fencing and markers were added to the location in 1990 and 1991, but livestock grazing in the field around the cemetery have continually damaged the protective fencing and threatened preservation of the remaining grave markers.

Franklin Historic Properties

The town of Franklin was founded in the spring of 1860 by Mormon pioneers moving north through the Cache Valley of Utah. Sixty-one families built small cabins along the Cub River (at that time called the Muddy River) and commenced farming. Settlers fanned out to establish new communities in northern Cache Valley. These early pioneers believed they were still in Utah, and not until 1872 did an official boundary survey fix the Idaho-Utah border a mile south of where Franklin was established. In a typical Utah pattern, the first settlers laid out wide streets and held a drawing to distribute town and farm lots. Town lots were large enough to accommodate a garden, barn, and outbuildings. Space was reserved for a central square — which today is the Franklin City Park, located south of the State of Idaho properties for which the Idaho State Historical Society is responsible. The Relic Hall is open to the public from Memorial Day through Labor Day and at other times by appointment. The Franklin Cooperative Mercantile Building, which primarily houses Mormon history of a local and denominational nature, is open periodically, mostly by appointment. The Hatch House is closed.

The Hatch House: In 1872, Lorenzo Hill Hatch built his elegant stone house on one of Franklin's largest lots on Main Street, across from the city square. Hatch was the town's temporal and spiritual leader from 1863 to 1875. He was the second Mormon bishop and the first mayor of Franklin. He was also the first Mormon legislator in Idaho. The stone Greek Revival style of the house was popular in Utah in the 1870s and the structure was occupied by descendants of Bishop Hatch until the 1940s. It was acquired by the Historical Society in 1979. When ownership of the house was assumed by the State of Idaho, the ground floor had been completely gutted by the previous owner. Extensive modifications had been made to the ground floor, which was raised approximately seven inches, and all interior walls were removed. The house is still in that condition. The second story survives with little modification and could be restored to an 1870-80s appearance in the future. A 1910 addition, made of a hard yellow brick, housed a new kitchen and pantry, later altered to a bathroom. This section of the house has been altered by the previous owner.

Relic Hall: In 1923 the Franklin Pioneer Association bought the old Franklin Cooperative Mercantile Building, located on Main Street one block east of US Highway 91, to use as a museum. After running out of room in that facility, the Association deeded a building lot to the State of Idaho located adjacent to and west of the Mercantile Building, hoping that a new building would be constructed on the site. The legislature appropriated funds for construction of a rustic log hall, which was built in 1936-37 from timber provided by the Forest Service and labor by Civilian Conservation Corps crews. The Idaho State Historical Society has been responsible for maintaining the Relic Hall building since its construction.

Franklin Cooperative Mercantile Building: Believed to have been constructed in 1870, this building stands on the east side of the Relic Hall and is probably the best preserved early commercial building in Idaho. It is still used as an adjunct display area to the Relic Hall.

Pierce Courthouse

For many years, the town of Pierce enjoyed the distinction of being Idaho's oldest town. However, later research determined that Franklin, in southeastern Idaho, was actually settled several months earlier by Mormon pioneers. The first gold rush on the Nez Perce Indian Reservation started at the site in September of 1860 when W. F. Bassett, one of a company of prospectors, began successfully panning for gold in Oro Fino Creek at the mouth of Canal Gulch. Although prospecting on the reservation was illegal, the discovery stirred up a mining fever among residents of Walla Walla, Washington, and several expeditions ventured into the Clearwater River area. The original prospectors and many of the subsequent expeditions were led by Elias D. Pierce, an individual more interested in opening new areas to mining than in actually seeking the mineral himself. Instead, he visited the Washington territorial capital in Olympia and lobbied for permission to build a toll road to the new mining region. During his absence, other miners named the new town in his honor. Pierce himself returned briefly in the spring of 1861 to run a sawmill, but he soon left to search for a new mining region. On January 8, 1861, the Washington Legislature established Shoshone County and made Pierce the county seat. By that summer, thousands of gold seekers poured into the Nez Perce country, which had been set aside as a reservation in 1855, and the town became a boisterous mining town in what was then Washington Territory. At first, the county commissioners met and court proceedings were held in rented rooms. Private citizens were paid to provide room and board for prisoners and. In 1862, Shoshone County built a courthouse at Pierce. The county remained a part of Washington Territory until Idaho Territory was established in 1863. By then roads, towns, farms, and dwellings were scattered across the landscape, and that year a new treaty reduced the Nez Perce reservation to less than one tenth its original size. The Pierce Courthouse served governmental needs until 1885, when the county seat was moved to Murray.

FISHING IN IDAHO

Idaho is famous for its fishing. More than 10 world-class blue-ribbon wild trout streams, including the Henrys Fork, Silver Creek and the St. Joe River, are scattered throughout the state. Many other high-quality trout streams exist that don't get the headlines and the crowds. Idaho's rugged mountains contain more than 1,500 high mountain lakes with good trout fishing. Numerous large natural lakes and reservoirs provide a wide variety of fishing opportunities for warm and cold-water species. In contrast to some states, most Idaho fishing waters are located in the public domain, and are open to the public. Access is free.

Family Fishing Waters: In response to anglers' requests for more family-oriented fishing opportunities and simplified rules, Fish and Game has developed Family Fishing Water regulations. In these areas there are year-around seasons, a general six-fish limit for trout, bass, walleye and pike and no bag limit on other species. There are no length limits or tackle requirements.

Salmon and Steelhead: Idaho is the only inland western state with ocean-run salmon and steelhead, and when conditions are right, the hatchery part of these runs provide an exciting fishing experience. State records are 54 pounds for salmon and 30 pounds, 2 ounces for steelhead.

HUNTING IN IDAHO

Idaho has some of the best and most varied hunting in the west! From the trophy species of moose, bighorn sheep and mountain goat to the more often hunted deer (mule deer AND whitetails), elk and antelope Idaho covers it all. We hunt black bear and mountain lions too, and a variety of upland game, turkeys and waterfowl. Licenses and tags are available over the counter for almost every species. There are outfitters if you need them. The state is two-thirds public land and a new Fish and Game program called Access Yes! is opening up more private land every year. Idaho has it all!
